NEW PRODUCTS

PAGE 06

MOLLE PANELS

The Putco MOLLE Rack System is custom engineered to fit directly to each make and model using the existing OEM mounting points in the bed. The rack systems allow you to keep your gear organized, easily accessible and secure. They work with all MOLLE, PALS, Quick Fist, and many other gear strapping systems to hold your cargo in place on the roughest roads.

PAGE 114

FORD Luminix LED Emblems

Upgrade your Ford truck by replacing its factory front and rear emblems with Putco's official Ford licensed LED emblems. This installment in the Luminix line of products seamlessly replaces the OEM Ford emblems using the original mounts. Installation is quick and easy, all wiring is plug & play and routes directly to the fuse box. The IP69K rated emblem is tough and durable, designed to withstand the elements and provide a unique signature look to your vehicle. With this LED emblem you can set your vehicle apart from the rest in no time with safety and style.

PAGE 38

VENTURE TEC™ RACK

PUTCO's VentureTEC Overland Modular Cargo System begins with a sleek bed rack designed to provide endless mounting options through its patent-pending TEC channel system. Constructed using high quality, lightweight 6061 t6 aluminum, this cargo system allows you to bring anything on-the-go!

PAGE 45

VENTURE TEC™ ACCESSORIES

Putco's VentureTEC Overland Modular Cargo System structure was meant to be accessorized by anything that one would want to bring along for the trip. Putco offers many accessories that will be sold separately and will continue to add to the catalog of accessories creating an endless amount of configurations. Utility is at the heart of VentureTEC and is delivered through the accessories shown and will continue with future additions.

NEW PRODUCTS

HORNET™ AMBER LED STEALTH ROOFTOP STROBE LIGHT BAR

Designed with a sleek, low profile, and stealth design in mind. It is fully weatherproof with lightheads completely sealed off and encapsulated with an easy roof mount setup. You'll be ready to go in no time.

PAGE 182

LUMINIX HOOD MOUNTS

Custom brackets design to mount using OEM bolt locations eliminating need for any drilling or cutting. All brackets allow free range of motion of hood in open or closed position.

PAGE 152

LUMINIX STEALTH GRILLE MOUNTS

Utilizes OEM bolting locations to create a simple no drill installation that can be done in minutes. Each fitment positions light bar behind grille or bumper grille to create a discrete low profile install when light bar is not illuminated.

PAGE 139

BUMPER GRILLE INSERTS

Upgrade the front end of your vehicle with Putco's high quality stainless steel and black powder coated grille inserts. This application is durable enough to weather everyday wear and tear. It is CNC-cut for precision fitments ensuring that our hidden mounting systems are in perfect alignment. This eliminates visible hardware and provides a seamless integration into your OEM bumper.

PAGE 98

NEW PRODUCTS

PAGE 52

Mud Shield™

PUTCO's New Mud Shields are designed to fit nearly any vehicle and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Shields™ install in minutes and are constructed with Gorillatuff Splashguards™ material. They come in 3 different sizes with your choice of a polished stainless steel or a black platinum anti-sail plate.

PAGE 56

Mud Skins™ Solid

PUTCO's Mud Skins™ Solids are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ solid are easy to install and can be mounted in minutes. Available in your choice of polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.

PAGE 59

Mud Skins™ Hex Shield

PUTCO's New Hex Shield™ Series Mud Skins™ are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ featuring new Hex Shied™ design insztall in minutes. Be sure to protect and stylize your vehicle with the Hex Skins™ Series Mud Skins™. They come in your choice of polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.

PAGE 46 • 48

TEC CROSSRAILS & ELEVATED TEC CROSSRAILS

TEC Crossrails and elevated TEC Crossrails add more areas to customize your Venture TEC Rack while increasing the stability of the overall structure and can easily be installed in minutes. Adding them to your Venture TEC rack creates many more ways to use your rack and is ideal for those who simply have more to take along or need to increase the strength of their cargo system to attach heavier items on top such as bike racks, tents, storage containers, roof racks or anything else that fits your needs.

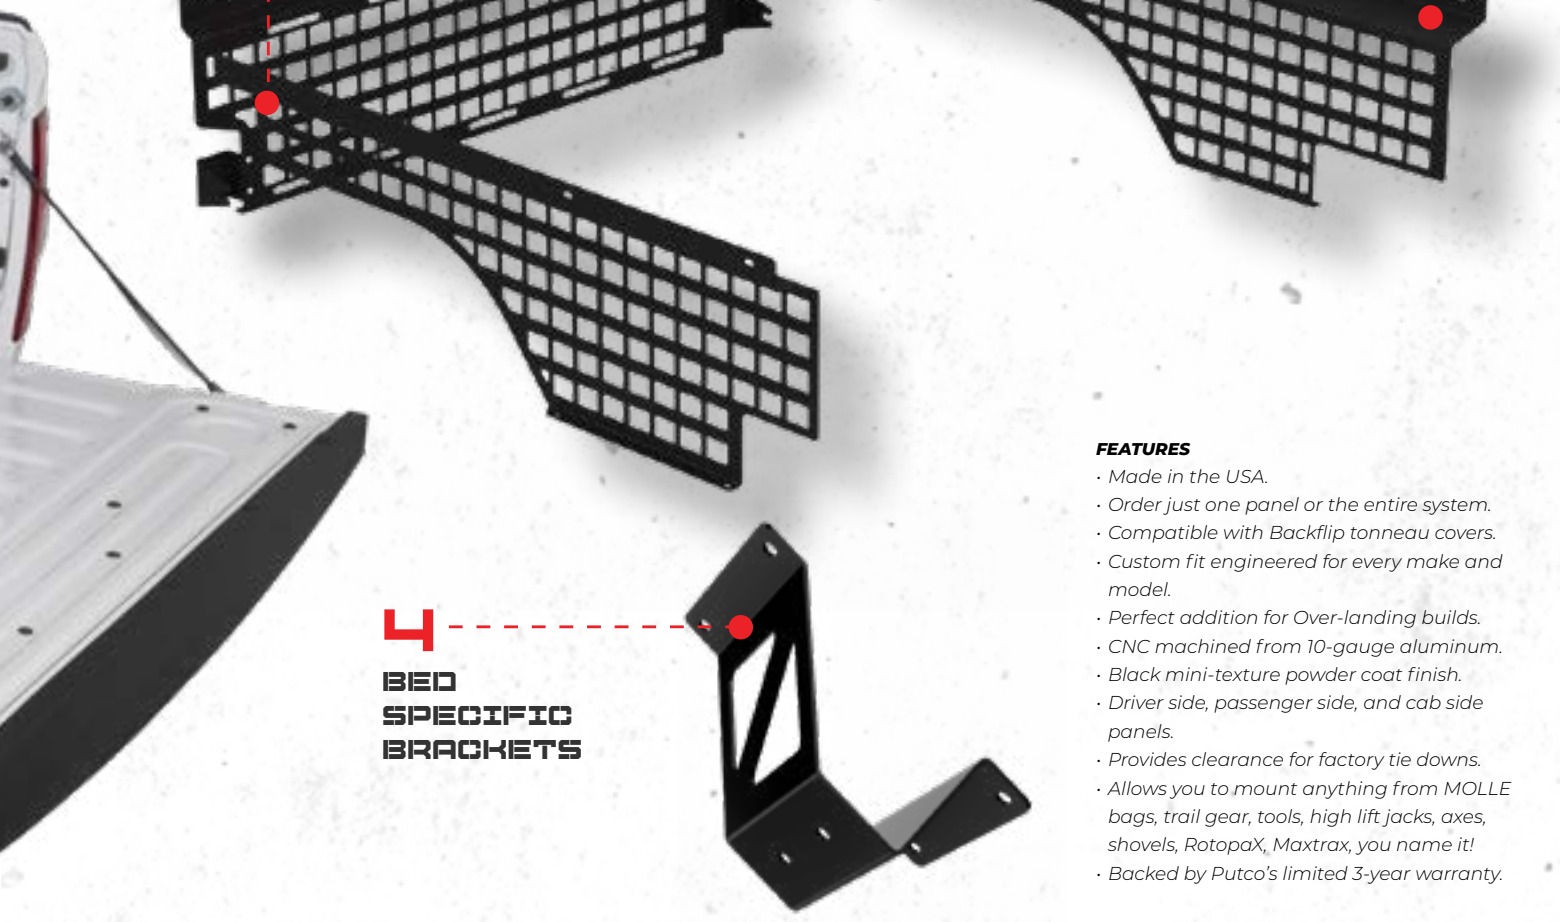
PUTCO®

MOLLE PANELS

-MODULAR LIGHTWEIGHT LOAD CARRYING EQUIPMENT-

GET GEARED UP.

A pickup full of gear doesn't have to be a jumbled mess. Whatever you're doing it's inevitable at some point you're going to end up with a bed full of gear. The Putco MOLLE Rack System is custom engineered to fit directly to each make and model using the existing OEM mounting points in the bed. The rack systems allow you to keep your gear organized, easily accessible and secure. They work with all MOLLE, PALS, Quick Fist, and many other gear strapping systems to hold your cargo in place on the roughest roads.



FEATURES

- *Made in the USA.*
- *Order just one panel or the entire system.*
- *Compatible with Backflip tonneau covers.*
- *Custom fit engineered for every make and model.*
- *Perfect addition for Over-landing builds.*
- *CNC machined from 10-gauge aluminum.*
- *Black mini-texture powder coat finish.*
- *Driver side, passenger side, and cab side panels.*
- *Provides clearance for factory tie downs.*
- *Allows you to mount anything from MOLLE bags, trail gear, tools, high lift jacks, axes, shovels, RotopaX, Maxtrax, you name it!*
- *Backed by Putco's limited 3-year warranty.*

QUICK & EASY INSTALLATION

1 ***IDENTIFY MOUNTING LOCATIONS***

2 ***INSTALL BRACKETS***

3 ***MOUNT PLATES TO BRACKETS***

4 ***ATTACH ACCESSORIES***

COMPATIBLE DESIGN

Works with most industry leading mounting accessories. MOLLE panel design accommodates not only standard MOLLE accessories that utilize strap lacing method but most any strapping mechanism as well.

PUTCO®

LOCKER RAILS

STYLE. FUNCTION. PROTECTION.

Load it up, tie it down, and head out! Putco Locker Rails add tying loops at each end of the rail for versatile cargo securing rated up to 500 lbs each. Putco Locker Bed Rails come in highly-polished stainless steel and boast 1 3/4" tubing to enhance the tough appearance and rugged performance of your truck. Installation takes just a few minutes. Simply bolt your truck bed rails through your stake pocket holes-no cutting or drilling required. If you don't have stake pockets, simply drill two holes and bolt them in.

1 NO DRILL INSTALLATION

Installation utilizes the truck's built-in stake pockets to secure the locker rails to the bed.

2 STAINLESS STEEL TUBES

Stainless Steel tubes are the foundation of the locker rail's durability and strength.

3 TIE-DOWN STRENGTH

Tie-down strength is rated at 500 lbs

FEATURES

- *Solid die cast construction on bed rail ends allow for extreme tie down strength.*
- *Easy no drill installation via stake pockets.*
- *Stainless tubes are chromed to 44 hour CASS and rails are backed by Putco's NeveRust™ Limited Life Time Warranty.*
- *500 lbs. tie-down strength.*

4 TONNEAU COMPATIBILITY

Locker rails occupy a minimal amount of area on the bed walls which in turn provides adequate clearance for the use of most modern tonneau covers.

PATENTED: # 6,231,285 • # D495,654 • # D497,589

STYLE

Add a touch of class to your truck with Putco's locker rails. Comes in several different styles with the choice of chrome or nylon black stanchion ends. See following pages for examples of each available option.

FUNCTION

Putco locker rails can be utilized as easy access tie-down points across each side of the bed of your truck to help secure your cargo load. See available options for different tie down options including the pop-up tie down points.

PROTECTION

Putco locker rails also offer a barrier of protection against scratches, dings and dents to the bed walls that may occur when loading objects into the truck bed.

PATENTED: # 6,231,285 • # D495,654 • # D497,589

SSR LOCKER RAILS

DIE CASTED

SSR Rails provide solid stanchion ends for the cleanest look.

CLASSIC RAILS

BEST SELLER

DIE CASTED

Classic Rails provide a slotted stanchion for added secure tie-down points along with a classic styling.

PATENTED: # 6,231,285 • # D495,654 • # D497,589

POP-UP RAILS

DIE CASTED

Pop-Up Rails are the best of both worlds. They provide a nice clean styling with the added functionality of a spring loaded tie-down point.

CROSS RAILS

DIE CASTED

Cross Rails are where style meets function. The industrial look of the ends also serve as multiple tie-down options.

PATENTED: # 6,231,285 • # D495,654 • # D497,589

NYLON CLASSIC RAILS

INJECTION MOLDED

A more economical option of the Classic Rails which provide a slotted stanchion for added secure tie-down points along with a matte black finish on the stanchions.

BOSS RAILS

DIE CASTED

When the standard sized locker rail isn't big enough, Boss Rails offer a "bigger is better" option of the classic rail.

PATENTED: # 6,231,285 • # D495,654 • # D497,589

NYLON OVAL RAILS

INJECTION MOLDED

Nylon Oval Rails are a wider oval-shaped cross section version of the Classic Rail with a matte black finish on the stanchions.

NYLON SSR RAILS

INJECTION MOLDED

A more economical option of the SSR Rails which provide solid stanchion ends for the cleanest look but with a matte black finish on the stanchions.

PATENTED: # 6,231,285 • # D495,654 • # D497,589

NYLON BLACK RAILS

INJECTION MOLDED

The nylon version of the Classic Rails with a full matte black finish across the entire rail.

NYLON BOSS RAILS

INJECTION MOLDED

A more economical option of the Boss Rails with a matte black finish on the stanchions.

PATENTED: # 6,231,285 • # D495,654 • # D497,589

BOSS RACK™

BLACK OR GREY POWDER COAT FINISH

ALL ALUMINUM CONSTRUCTION

MADE IN THE USA

BOSS OF ALL RACKS.

The Putco Boss Rack™ is constructed of top grade aluminum to provide a product that will serve your needs for years to come. This is a product so durable, so tough, it will likely outlast the truck you mount it on! Putco's one of a kind Boss Rack™ was designed with custom extrusions for seamless and perfect light bar mounts. Putco's Boss Rack delivers premium quality protection for your truck while turning heads with it's unparalleled performance.

WORKS WITH EXISTING TONNEAU COVERS AND LOCKER RAILS

MADE IN AMERICA

1 100% ALUMINUM

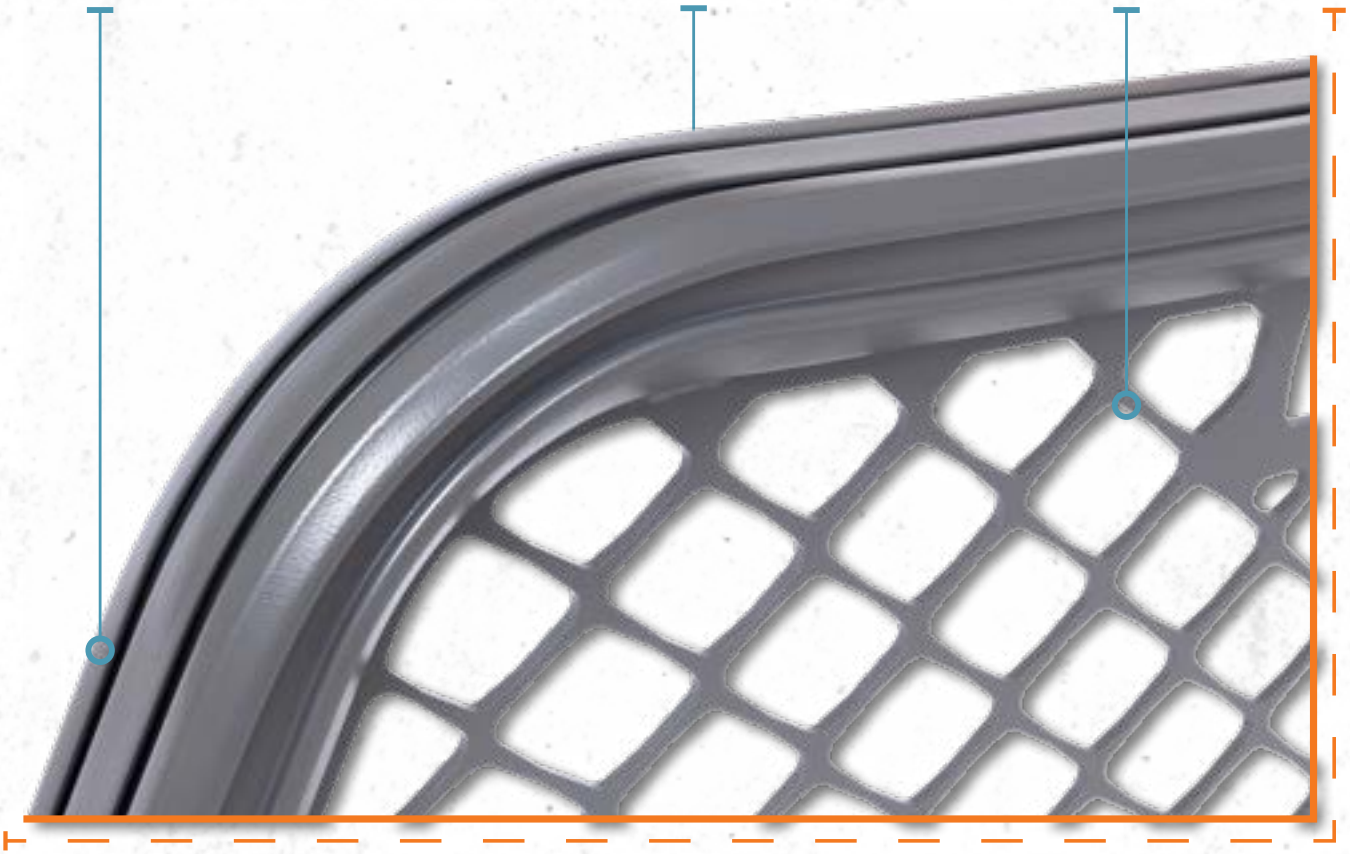
Lightweight and strong 6061 T6 aluminum construction.

2 TEC CHANNELS

Unique dual channel system creates secure and reliable connection points for a diverse collection of accessories.

3 CHAMFERED EDGES

Custom 3 axis CNC center plate pattern with sleek stylized chamfered edges.



VEHICLE SPECIFIC DESIGN FOR A DIRECT FIT

PATENTED: # D922,673

BOSS™ RACK

ALL ALUMINUM CONSTRUCTION

CUSTOM CNC MILLED 3RD BRAKE LIGHT OPENING ON EACH APPLICATION
ZERO OBSTRUCTION WHERE IT COUNTS

FEATURES

- *Putco exclusive patent pending.*
- *CNC 7 axis bending for exact vehicle cab contour.*
- *Custom 3 axis CNC center plate pattern with third brake light opening.*
- *Ready built to integrate Putco's LED light bars and Tec Rail™*
- *Lightweight and strong 6061 T6 aluminum.*
- *Works with all inside rail tonneau covers. Narrow mounting brackets for discrete installation utilizing stake bed pockets.*
- *3 year warranty on material defects & failure, Putco's NeveRust™ Limited lifetime warranty*

HIGHLY COMPATIBLE DESIGN

BUILT FOR ACCESSORIES

NO DRILLING NECESSARY

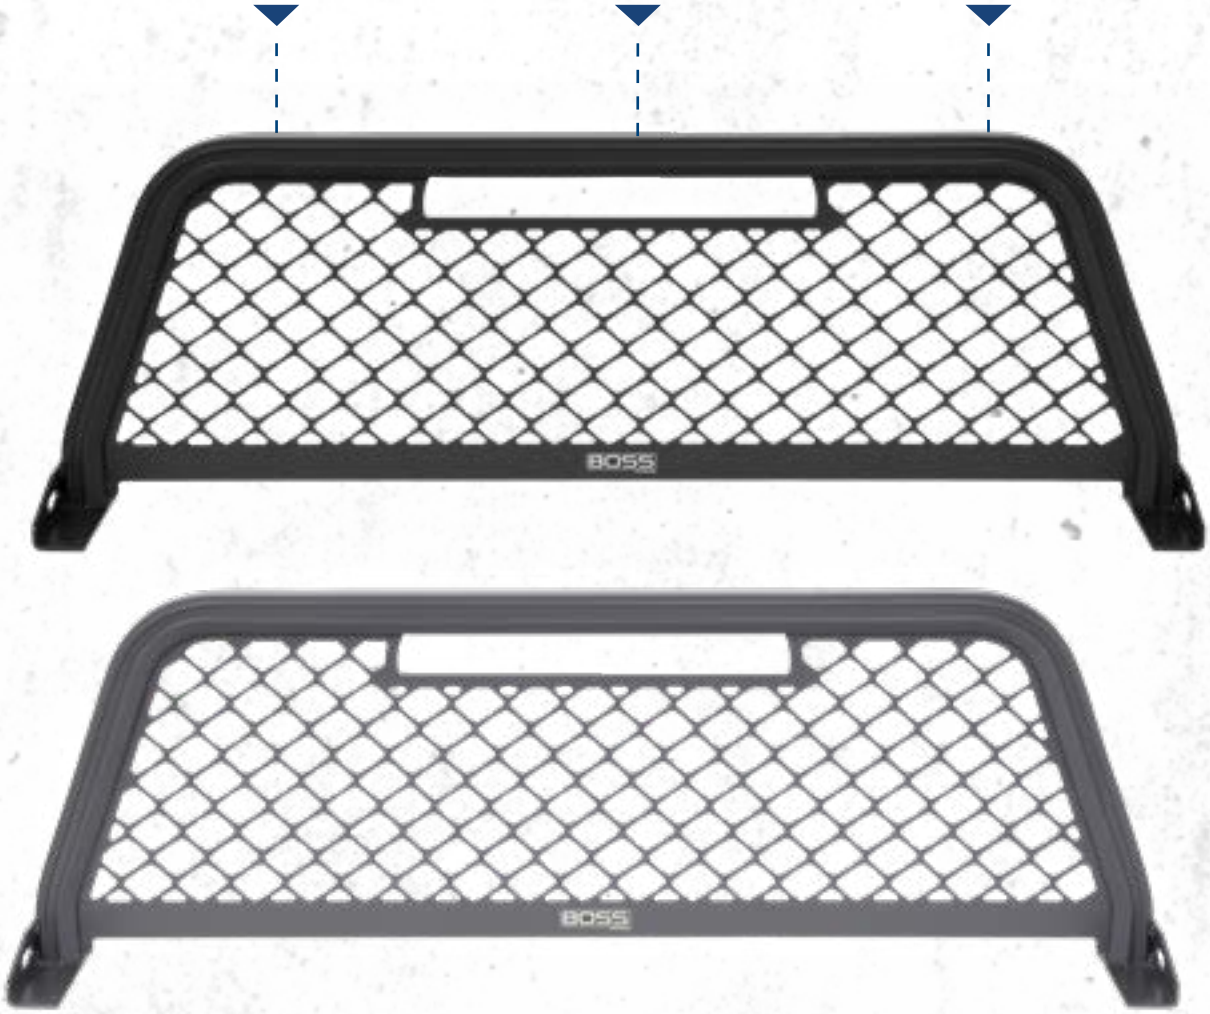
Boss Racks come with hardware that allow no drill mounting. Insert brackets in stake pocket and simply tighten bolt in place. Additional bolts included if drill mount is desired.

TEC RAIL™ COMPATIBLE

Mounting plate fits directly with Tec Rail stanchions with precise alignment for full Tec Rail integration. Hardware is identical to Tec Rail hardware for quick and easy upgrade to full Tec system.

BED COVER COMPATIBLE

Boss Rack and Tec Rail both fit seamlessly with rolling and folding Tonneau covers. No modification necessary. Mounting plates seat flush directly outside of cover tracks.



AVAILABLE IN BLACK OR GRAY

PUTCO® VENTURE TEC™

overland modular cargo system

WHERE ADVENTURES BEGIN.

PUTCO's VentureTEC Overland Modular Cargo System begins with a sleek bed rack designed to provide endless mounting options through its patent-pending TEC channel system. Constructed using high quality, lightweight 6061 t6 aluminum, this cargo system allows you to bring anything on-the-go!

WHAT'S INCLUDED

TENT MOUNTING KIT

STAINLESS STEEL BLACK MOUNTING PLATE **x4**

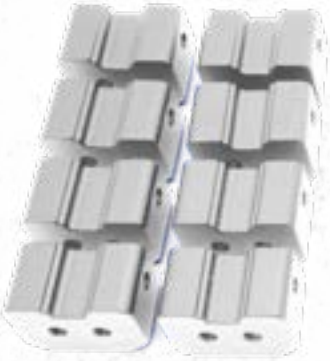
STAINLESS STEEL BLACK 1/2" BOLTS **x16**

STAINLESS STEEL 1/4" SQ NUTS **x16**

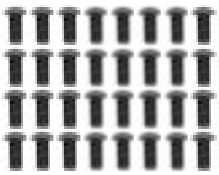
STAINLESS STEEL BLACK 1 1/2" BOLTS **x8**

STAINLESS STEEL BLACK 1/4" LOCK NUTS **x8**

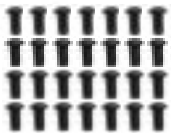
THE HARDWARE



CoreTEC Connector Blocks Solid Billet Aluminum **x8**



STAINLESS STEEL BLACK 5/8" BOLTS **x32**



STAINLESS STEEL BLACK 1/2" BOLTS **x32**

STAINLESS STEEL 1/4" SQ NUTS **x32**

BONUS HARDWARE FOR ACCESSORIES

8 ADDITIONAL NUTS AND BOLTS

PATENTED: # D922,673

VENTURE TEC FEATURES

CLAW-GRIP JOINTS

Every joint is securely fastened with a 4-bolt mechanism paired with the CoreTEC Block which is a solid aluminum stabilization insert.

EZ-TEC ACCESS SLOTS

Easily place or remove TEC channel compatible products for customizing your cargo load

TIE DOWN POINTS

Tie down points have been integrated in the VentureTEC design for the convenience of securing cargo.

6061 T6 ALUMINUM

6061 T6 Aluminum construction provides a lightweight and durable core for carrying any cargo load that will attach to the framework.
Load Rating: 500 lb dynamic & 1000 lb Static
Backed by Putco's 3 year warranty

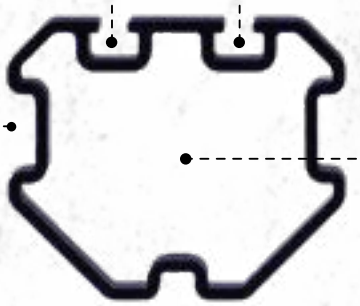
MADE IN USA

TARGET FEATURE

VentureTEC TUBE DESIGN + CoreTEC BLOCK

TEC CHANNEL SYSTEM

Designed as a universal system for all VentureTEC accessories to fasten securely to the rack.



CUSTOM BLADE GROOVE

This custom groove is fully compatible with any Putco patented Blade LED Light Bar.

CoreTEC CONNECTOR BLOCK

The CoreTEC Connector Block is a solid billet aluminum insert that fits snug within tube and reinforces each joint section of the VentureTEC rack to ensure stability and strength of the structure.

STAKE POCKET BED MOUNTS

The core of the system mounts to any truck bed via stake pocket mounts which allows the truck bed to be a strong foundation for the rack.

CNC 7 AXIS BENDING

CNC 7 axis bending allows for exact vehicle cab contour to create a sleek look to your vehicle while maintaining full functionality of the rack.

No Drill Installation

PUTCO LED INTEGRATION

VentureTEC was engineered to work seamlessly with Putco's patented LED Luminix and Blade Light Bar series.

BLADE
LED TAILGATE LIGHT BAR

#92010-36L

VEHICLE FITMENT OPTIONS

PUTCO VentureTEC Overland Modular Cargo System is designed to custom fit various OEM truck beds through its multitude of fitting options and versatility. Utilizing the stake pockets to secure to the bed of the truck allows the vehicle to become a support foundation for the entire rack system. The innovative design also allows room for a bed cover to be used, along side additional mounting options for smaller trucks without stake pockets, making it the perfect fit for anyone!

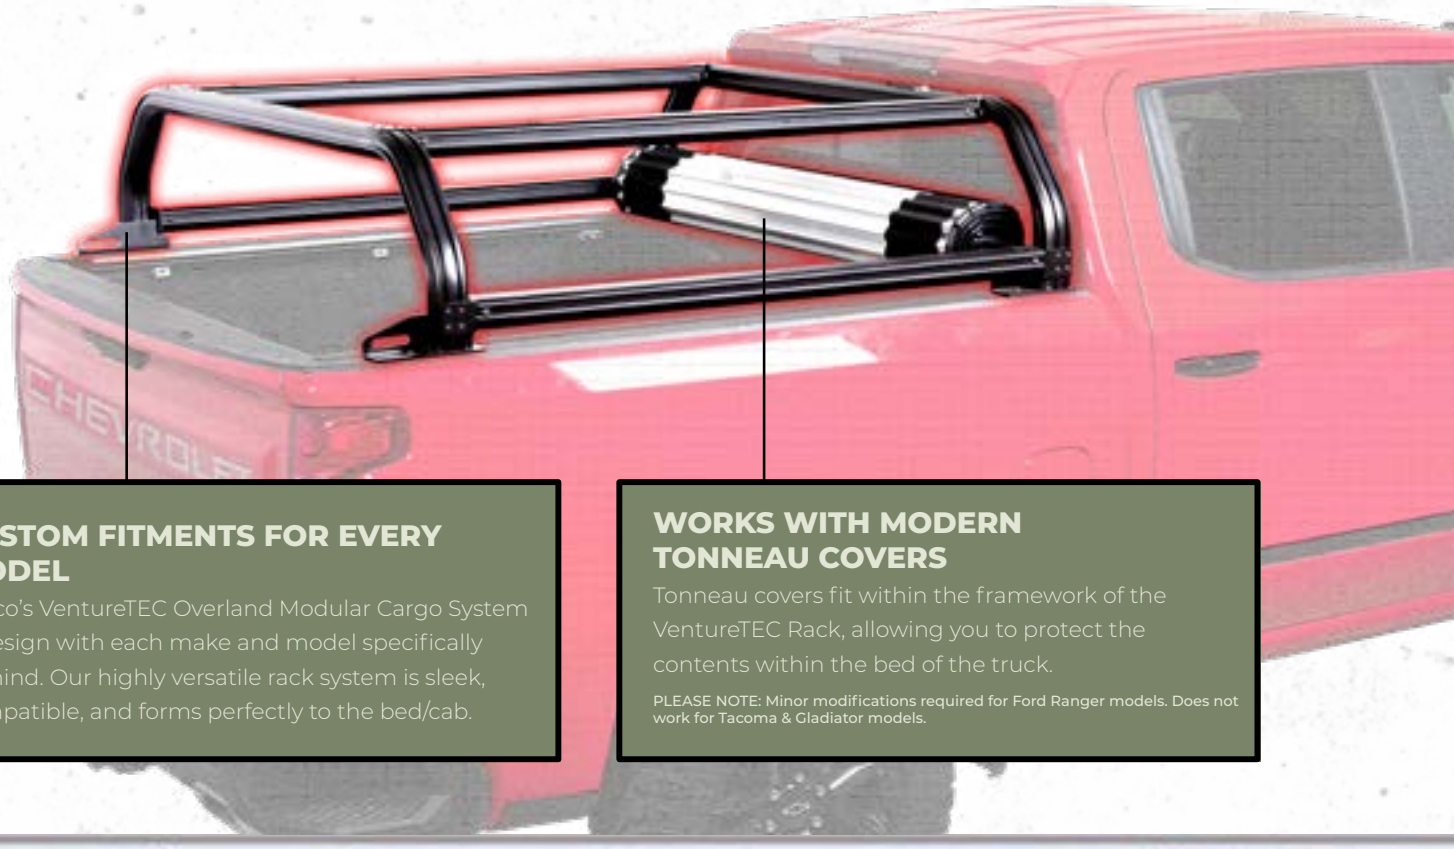
184610 - Tundra 6.5ft (Standard Box)				**2007-2022+**

* All between rails covers will need to be modified to fit VentureTEC rack on these models.



CUSTOM FITMENTS FOR EVERY MODEL

Putco's VentureTEC Overland Modular Cargo System is design with each make and model specifically in mind. Our highly versatile rack system is sleek, compatible, and forms perfectly to the bed/cab.

WORKS WITH MODERN TONNEAU COVERS

Tonneau covers fit within the framework of the VentureTEC Rack, allowing you to protect the contents within the bed of the truck.

PLEASE NOTE: Minor modifications required for Ford Ranger models. Does not work for Tacoma & Gladiator models.

ACCESSORIES

Putco's VentureTEC Overland Modular Cargo System structure was meant to be accessorized by anything that one would want to bring along for the trip. Putco offers many accessories that will be sold separately and will continue to add to the catalog of accessories creating an endless amount of configurations. Utility is at the heart of VentureTEC and is delivered through the accessories shown and will continue with future additions.

#185703
Gladiator - #185705
Super Duty - #185712

TEC Mounting Plate

Made from black-coated stainless steel. Made to attach to the side of the VentureTEC rack and is fully compatible with Rotopax mounting system.

185703 - DIMS: 12" x 12.5" x 18"
185705 - DIMS: 11" x 17" x 18"
185712 - DIMS: 12.4" x 17.3" x 18"

TEC Cross Rail

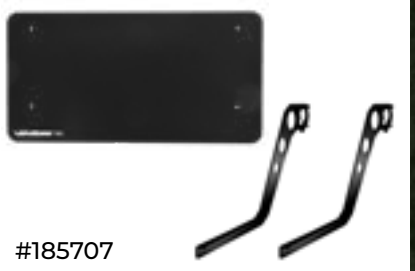
TEC CROSSRAILS PROVIDE ADDITIONAL SUPPORT AND ADD MORE WAYS TO CUSTOMIZE YOUR VENTURE TEC RACK

See Application Guide for all fitments

#185700

TEC Grab Handle

These aluminum die cast handles fasten to anywhere on the VentureTEC rack to provide a sturdy grip for holding on to.



#185707

TEC Table with Mounting Arms

These arms clamp to the frame of the VentureTEC rack and creates a support unit to hold a platform that can be used as a work space or table.

Includes table and pair of arms

Arms: 24” x 14” x 1”
Table: 23.5” x 12” x 0.1”

BLACK-COATED
STAINLESS STEEL MOUNTING PLATES

STAINLESS STEEL BLACK
1/2” BOLTS **x8**

TEC Mini Tie Downs

Tie downs fasten to VentureTEC system to provide secure tie down points nearly anywhere on the rack.

Item sold as a pair.

500lb Tie Down Strength
DIMS: 1.13” x 2.10” x 3.10”

#185708

BLACK-COATED STAINLESS STEEL MOUNTING PLATES

Elevated Tent Mounting Kit

Elevated brackets are designed to provide clearance between the bottom of flush-mount tents and the top of rack to accomodate cap head bolts.

Includes 4 plates and mounting hardware.

#185719

ELEVATED TEC CROSSRAILS

KICK IT UP A NOTCH WITH ELEVATED TEC CROSSRAILS

This version of the TEC Crossrail takes your Venture TEC Rack or your Truck Bed TEC Rails to the next level. This allows you to maximize the cargo space of your truck and provides more areas to add more items or storage to your rack or rail set. Putco's patented TEC Channels are featured on the crossrails and continues the endless ways that you can customize your Venture TEC Rack or TEC Rails. Whether you need to add a larger tent or storage rack that extends above your cab or you want to be able to haul your bicycles along, the Elevated TEC Crossrails will give you the ability to expand your truck's versatility.

ELEVATED TEC CROSSRAIL FEATURES

- 6061 T6 Aluminum construction
- 9" aluminum risers
- CoreTEC Connector Block reinforces end joints
- Sized to specific Venture TEC Rack or TEC Rail
- Patented TEC Channel System for attaching accessories
- Installs in minutes
- Sold as pair

See application guide for all fitments

FEATURES CoreTEC CONNECTOR BLOCK

Elevated TEC Crossrails are perfect for hauling larger or longer cargo by safely securing items above your truck's cab area.

WHERE ADVENTURES BEGIN

PUTCO®

MUD SHIELD™

STANDARD

BLACK PLATINUM ANTI SAIL

ONE TOUGH SHIELD.

PUTCO's New Mud Shields are designed to fit nearly any vehicle and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Shields install in minutes and are constructed with Gorillatuff Splashguards™ material. They come in 3 different sizes with your choice of a polished stainless steel or a black platinum anti-sail plate.

FEATURES

- *Set consists of 2 mud flaps*
- *Single Piece Construction*
- *Made from Gorillatuff Splashguards™ nearly industructible material*
- *Channeled Surface to direct debris and moisture*
- *Flexible material for better debris protection*
- *Available with Black Platinum Anti-Sail Plates or no anti-sail plate at all*
- *Backed by Putco's 1 year warranty*

QUICK & EASY INSTALLATION

Universal design accomadates each make and models' mounting locations. Each can be positioned higher or lower to adjust to wheel size and body height. This allows the owner flexibility in terms of placement to maximize protection.

SINGLE PIECE CONSTRUCTION

Each flap is a single piece of Gorillatuff Splashguards™. Without having any additional points of attachment ensures the most durable construction. Mud Shields are able to withstand any and all road debris that a vehicle can kick up at it.

ANTI-SAIL PLATE

The Anti-Sail provides extra weight to keep the Gorillatuff Splashguards™ in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, Mud Shields™ does a better job protecting the items being towed from damaging road debris.

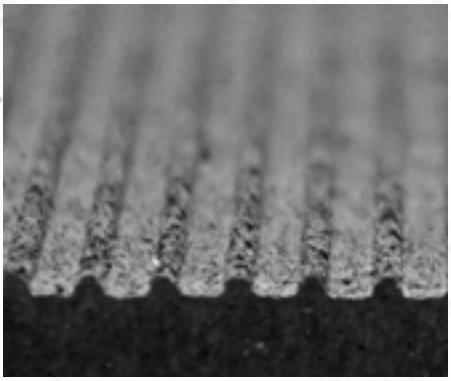
GORILLATUFF SPLASHGUARDS™

GORILLATUFF SPLASHGUARDS™ DURABILITY & FUNCTIONALITY

SIMPLE & DURABLE BUILD

A superior mud flap begins with better materials and a simple but solid one-piece construction. The nearly indestructible rubberized poly blend is made from 95% recycled materials all sourced from here in the U.S. The entire flap is a single piece of this durable material which ensures that the strength of the flap is consistent throughout the full length. This extruded splash guard has undergone rigorous testing for UV damage and is backed by Putco's extensive warranty program.

CHANNELED SURFACE



The patented design uses gravity and wind flow to unite fine droplets forcing water to drip from the bottom of the flap rather than aerosolize and create a mist that makes lane changes and vehicle passing dangerous.

RECYCLED MATERIALS

Part of what makes this product so great is that the material itself is comprised of 95% recycled materials. Reducing waste and creating a superior hitch flap at the same time to create a state-of-the-art material for long-lasting durability.

HOW IT WORKS

SMOOTH SURFACE

Traditional smooth surfaced mud flaps allow moisture to flow to the perpendicular edge creating fine particulates with low visibility.

CHANNELED SURFACE

Channeled splash protection is a feature of Gorillatuff Splashguards™ that channels water from the truck tire to the ground.

PUTCO®

MUD SKINS™ [SOLID]

Putco's proprietary stainless steel features a super 8 mirror finish that delivers the shiniest and most refelective surface and a durable longlasting build that is highly resistant to corrosion.

This finish has a light textured matte black look that is CNCed High-density polyethylene. This material is corrosion resistant, has a temperature range of -60C to 180F, will not crack or fade under UV.

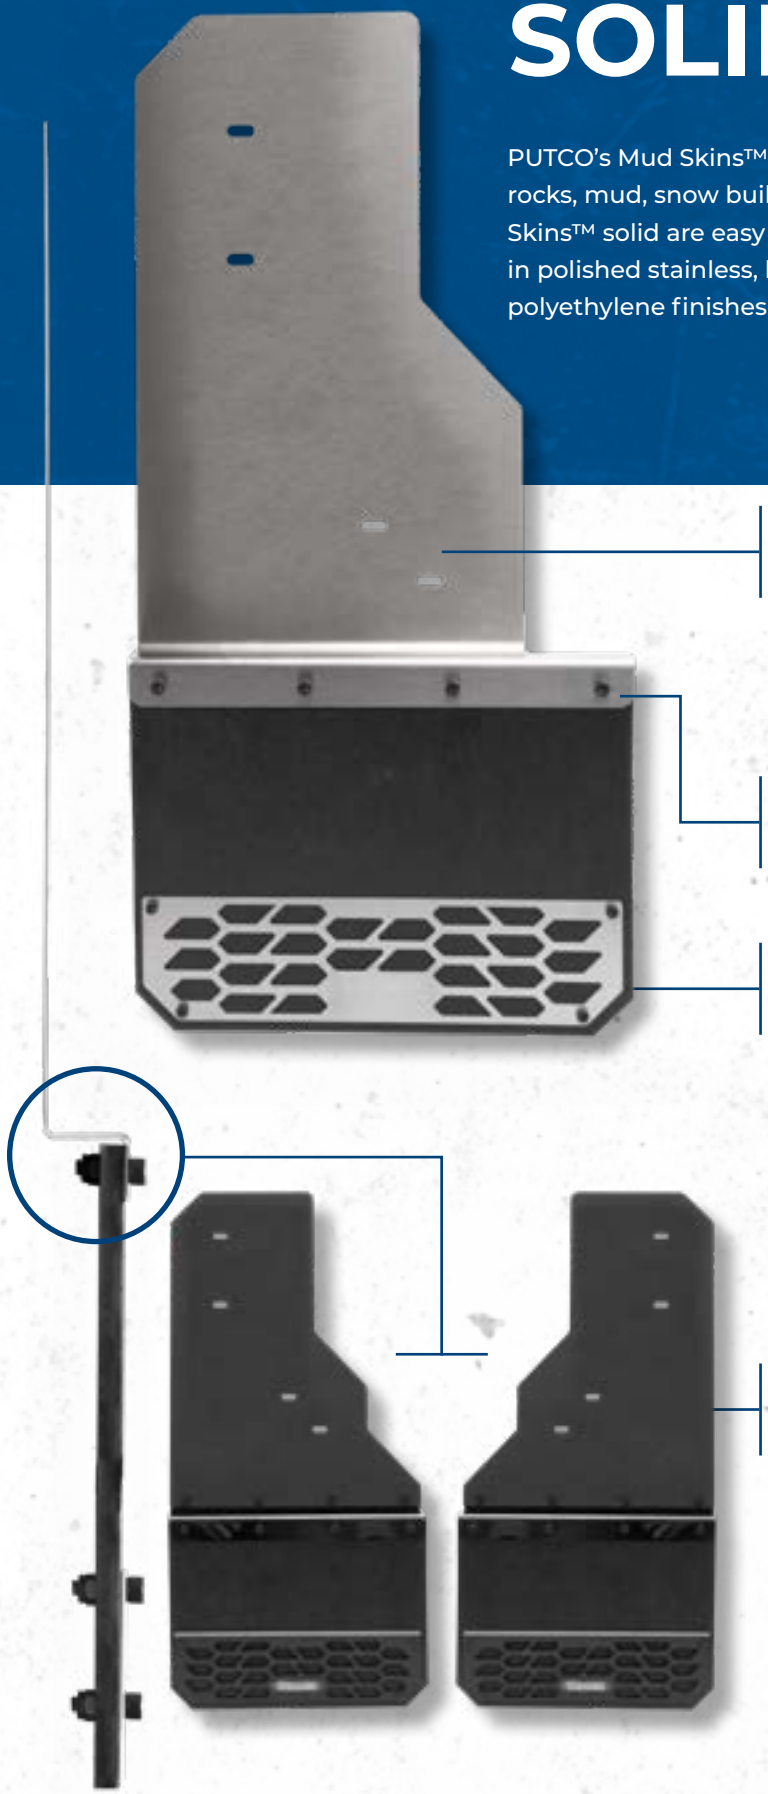
This option is made from a high Molybdenum 304 stainless steel that has a brushed grain metallic sheen to not only protect your vehicle but give your vehicle a modern industrial look.

FEATURES

- Set consists of 2 premium mud flaps
- Laser cut for precision fit
- Bolted Construction
- Offset design allows for tire clearance
- Flexible material for better debris protection
- Available in polished stainless, brushed stainless and carbon black HDPE finishes
- Features new Hex Shield™ pattern
- Designed for single rear wheel and dual wheel applications.
- 1 year warranty on material defects & failure, Putco's NeveRust™ Limited lifetime warranty

SOLID DEFENSE

PUTCO's Mud Skins™ Solids are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ solid are easy to install and can be mounted in minutes. Available in polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.



MOUNTING BRACKET

The Mounting Bracket on the Mud Skins Solid version is a simplifed utilitarian take on the original Mud Skins Hex-Shield . Each mud set is design to align directly with OEM mounts making installation easy. The flat no-recess design is perfect for deflecting debris and makes for an easy to clean surface.

BOLTED STRUCTURE

All components are fastened securely with bolts that ensures that your mud flaps will not fall apart when enduring road debris.

ANTI-SAIL
WITH HEX-SHIELD™ PATTERN

The Anti-Sail provides extra weight to keep the GorillaTuff™ Splash Guard in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, Mud Skins Solid does a better job protecting the items being towed from damaging road debris.

SETBACK DESIGN

Mud Skins utilize a hefty 18 guage stainless steel mounting bracket that is offset to position the Gorillatuff® Splash Guards back to allow more room for larger tires while still providing the protection and clearance that you need. Mud Skins will not interfere with your preference for big tires and dirt roads.

MADE IN THE USA

GORILLATUFF SPLASHGUARDS™

GORILLATUFF® SPLASH GUARDS

A superior mud flap begins with better materials. The nearly indestructible rubberized poly blend is made from 95% recycled materials all sourced from here in the U.S. This extruded splash guard has undergone rigorous testing for UV damage and is backed by Putco's extensive warranty program.

PUTCO® MUD SKINS™

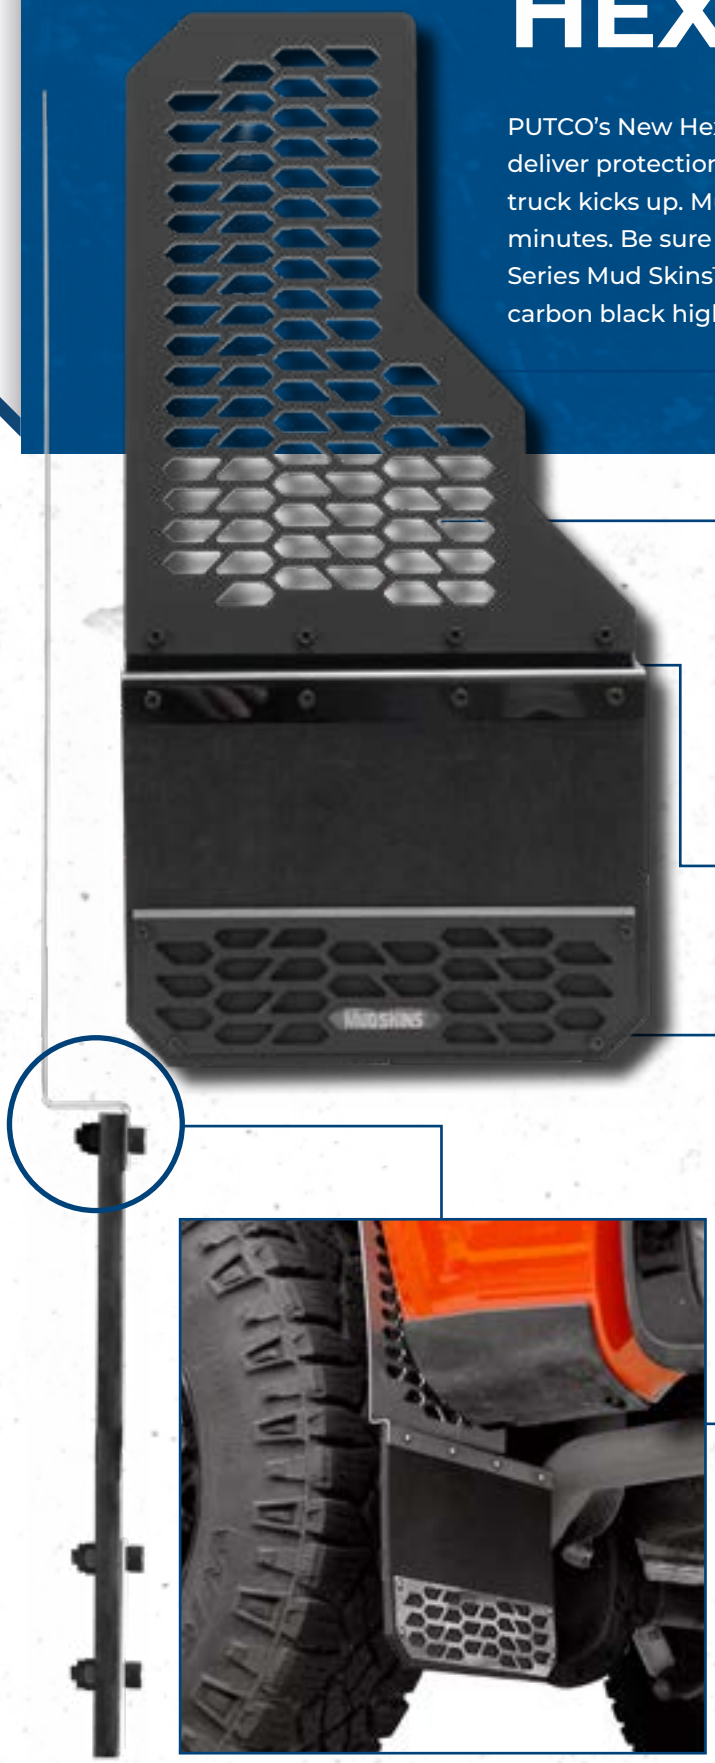
FEATURING: PUTCO HEX SHIELD™

FEATURES

- Set consists of 2 premium mud flaps
- Laser cut for precision fit
- Riveted Construction
- Offset design allows for tire clearance
- Flexible material for better debris protection
- Available in polished stainless, brushed stainless and carbon black HDPE finishes
- Features new Hex Shield™ pattern
- 1 year warranty on material defects & failure, Putco's NeveRust™ Limited lifetime warranty

HEX PROTECTS.

PUTCO's New Hex Shield™ Series Mud Skins™ are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ featuring new Hex Shield™ design install in minutes. Be sure to protect and stylize your vehicle with the Hex Shield™ Series Mud Skins™. Available in polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.



MOUNTING BRACKET
WITH HEX-SHIELD™ PATTERN

The Mounting Bracket features Putco's new HEX SHIELD™ pattern that not only serves as a stylish accent to your vehicle's look but provides a strong mounting surface where the pattern becomes a versatile connection area for attaching to your vehicle. This makes installation quick becuase it can be easily attached no matter the location of your vehicle's mounting points.

BOLTED STRUCTURE

All components are fastened securely with bolts that ensures that your mud flaps will not fall apart when enduring road debris.

ANTI-SAIL
WITH HEX-SHIELD™ PATTERN

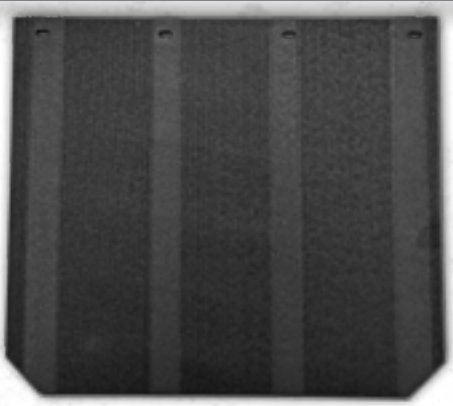
The Anti-Sail provides extra weight to keep the GorillaTuff™ Splash Guard in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, Mud Skins Hex Shield does a better job protecting the items being towed from damaging road debris.

SETBACK DESIGN

Mud Skins utilize a hefty 18 guage stainless steel mounting bracket that is offset to position the Gorillatuff® Splash Guards back to allow more room for larger tires while still providing the protection and clearance that you need. Mud Skins will not interfere with your preference for big tires and dirt roads.

MADE IN THE USA

GORILLATUFF SPLASHGUARDS™



GORILLATUFF® SPLASH GUARDS

A superior mud flap begins with better materials. The nearly indestructible rubberized poly blend is made from 95% recycled materials all sourced from here in the U.S. This extruded splash guard has undergone rigorous testing for UV damage and is backed by Putco's extensive warranty program.

SEE MUD SHIELD FOR MORE INFO ABOUT HOW THEY WORK

AVAILABLE SKIN OPTIONS

POLISHED STAINLESS STEEL

Putco's proprietary stainless steel features a super 8 mirror finish that delivers the shiniest and most refelective surface and a durable longlasting build that is highly resistant to corrosion.

CARBON BLACK HIGH-DENSITY POLYETHYLENE

This finish has a light textured matte black look that is CNCed High-density polyethylene. This material is corrosion resistant, has a temperature range of -60C to 180F, will not crack or fade under UV.

BRUSHED STAINLESS STEEL

This option is made from a high Molybdenum 304 stainless steel that has a brushed grain metallic sheen to not only protect your vehicle but give your vehicle a modern industrial look.

PUTCO®

ROCKER PANELS

PUTCO CHROME Trim Accessories

PRO STAINLESS STEEL • STAINLESS STEEL BLACK PLATINUM

BACKED WITH 3M™ AUTOMOTIVE TAPE FOR QUICK ANY EASY INSTALLATION

RIDE WITH STYLE.

Don't let scratches and minor rusting drag down your trucks' style, outfit your ride with Putco rocker panels. A perfect fit for a truck owner that wants to protect their truck from rocks and other debris. These rocker panels are made from top quality stainless steel. Putco takes the time to polish each piece to a mirror finish similar to chrome. These kits are custom cut to fit your exact specifications, providing maximum protection against damaging rocks or other debris while keeping mounting simple and easy.

PUTCO®

PUTCO CHROME Trim Accessories

PILLAR TRIM

STAINLESS STEEL • BLACK PLATINUM

ALL LASER CUT WITH 3M™ BACKING

PILLARS OF STYLE.

Putco stainless steel pillar post trim is tailor made for a seamless fit on your year, make and model. Running the length of your side pillars, these polished metal 3M™ backed pillar posts add a clean sharp look to your profile that's sure to turn heads. Best of all, they're built from pure T-304 stainless steel, so they'll outshine, outlast, outperform other chrome pillar posts.

STAINLESS STEEL PILLAR TRIM

ALL EDGES CRIMPED

FEATURES

- *Enhances the look of your truck for a true custom look!*
- *Made of Stainless Steel; long lasting material designed to withstand the elements.*

PUTCO®

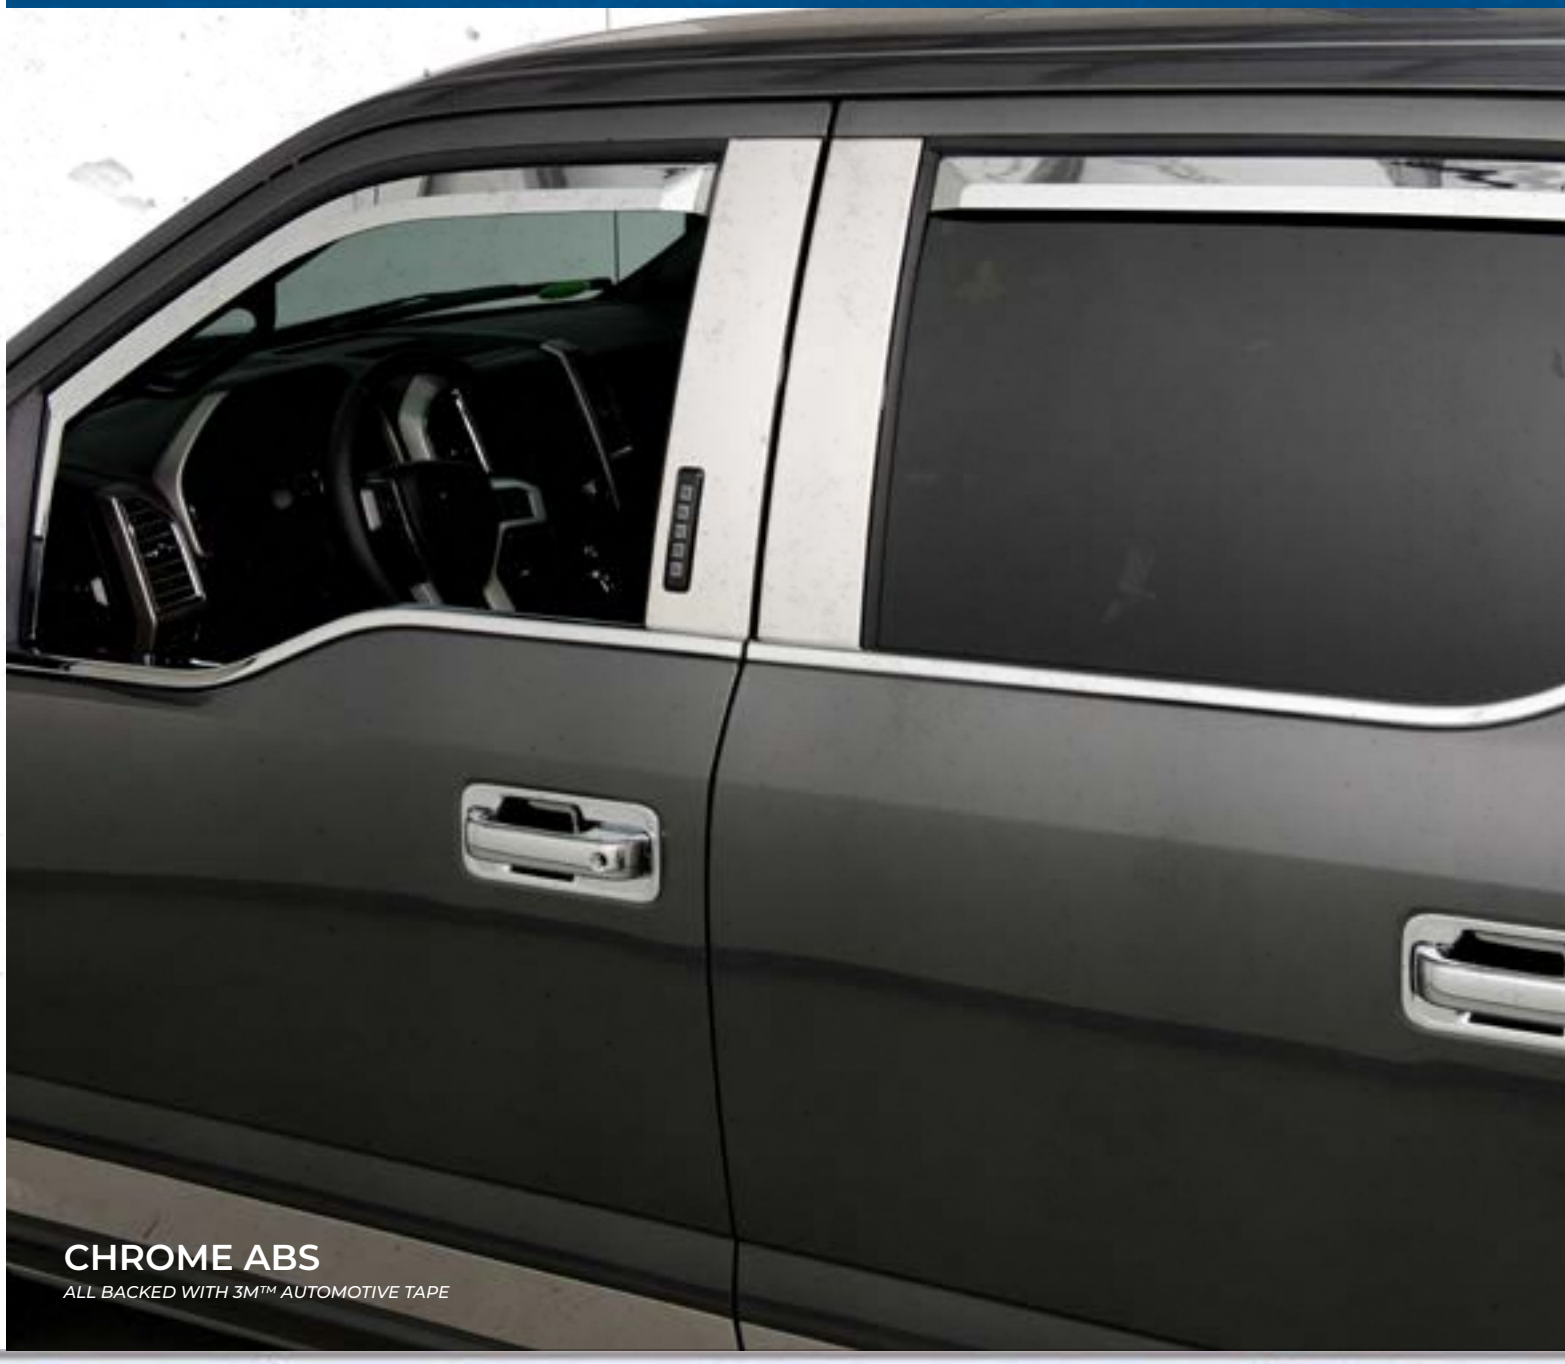
WINDOW TRIM

PUTCO CHROME Trim Accessories



CHROME ABS

ALL BACKED WITH 3M™ AUTOMOTIVE TAPE

CHROME PERFECTION.

Enhance your vehicles' appearance by upgrading with the Putco Chrome Window Trim. Specifically designed for an easy and custom fit, these Window Trim pieces are constructed out of durable ABS plastic and feature a bright chrome like finish. They'll easily complement your truck's factory chrome finishes, adding clean lines that are perfectly paired with bright tube steps or any of Putco's chrome trim pieces. Use this kit to add the finishing touches on your truck or start your very own styling project.

OFFICIALLY LICENSED CHROME WINDOW TRIM

FEATURES

- *Made from chrome ABS.*

PUTCO®

PUTCO CHROME Trim Accessories

MIRROR COVERS

MATCHES OEM CHROME PERFECTLY

DRAMATICALLY ENHANCES THE LOOK OF YOUR FACTORY MIRROR

MATCHING CHROME COVERS.

In next to no time you can upgrade the overall appearance of your truck with Putco's chrome mirror covers. Our chrome mirror covers are constructed from heavy-duty automotive grade ABS chrome which provides the strength and durability to outlast damaging rocks, bugs, and other debris. Each mirror cover is finished with Putco's NeveRust™ chrome finish, which is resistant to cracking and peeling. Mounting is made easy with pre-applied Automotive 3M™ tape. Installation is easy as peeling the back off of the 3M™ tape and placing over the existing mirror.

CHROME MIRROR COVERS

FEATURES

- *Dramatically enhances the look of the factory mirror.*
- *Applications to fit the most popular vehicles.*
- *Installs easily with pre-applied Red 3M™ Tape, simple peel and stick.*
- *No cutting or drilling required.*
- *Made of an Automotive Grade ABS Chrome.*
- *Long lasting material designed to withstand the rigors of the elements.*
- *Matches OEM Chrome perfectly.*
- *Add our Chrome Door Handles, Head Lamp Covers, and Tail Light covers to complete the look.*
- *Priced Right! No other product on the market like it.*
- *1 Year Warranty.*

PUTCO®

PUTCO CHROME Trim Accessories

DOOR SILLS

STAINLESS STEEL • BLACK PLATINUM • LICENSED

ALL LASER CUT WITH 3M™ BACKING

PROTECT THE ENTRY WAY.

Putco's Stainless Steel and Black Platinum Door Sill Plates are made out of high-quality 26 gauge 304 stainless steel and feature laser cut 3M™ backing for a hassle-free installation. This method of installation is non permanent and does not require vehicle modification. Our black platinum series is made from the same high-grade stainless steel that then receives a black anodized finish for extra corrosion resistance a great look. All of our licensed door sill plates are precisely laser-etched for a crisp, clean look that is sure to catch attention while protecting your door sills.

BUMPER GRILLE INSERTS

COMBINES PROTECTION WITH STYLE IN CUSTOM FITTED APPLICATIONS

STAINLESS STEEL · BLACK POWDER COATED · BLACK ANODIZED

MADE IN THE USA

THESE IMAGES ARE FOR GUIDE PURPOSE ONLY, ACTUAL RESULTS MAY VARY DEPENDING ON AMBIENT LIGHT FACTORS.
ALL PRODUCTS ARE PATENTED AND PROPERTY OF PUTCO®

SLEEK & TOUGH.

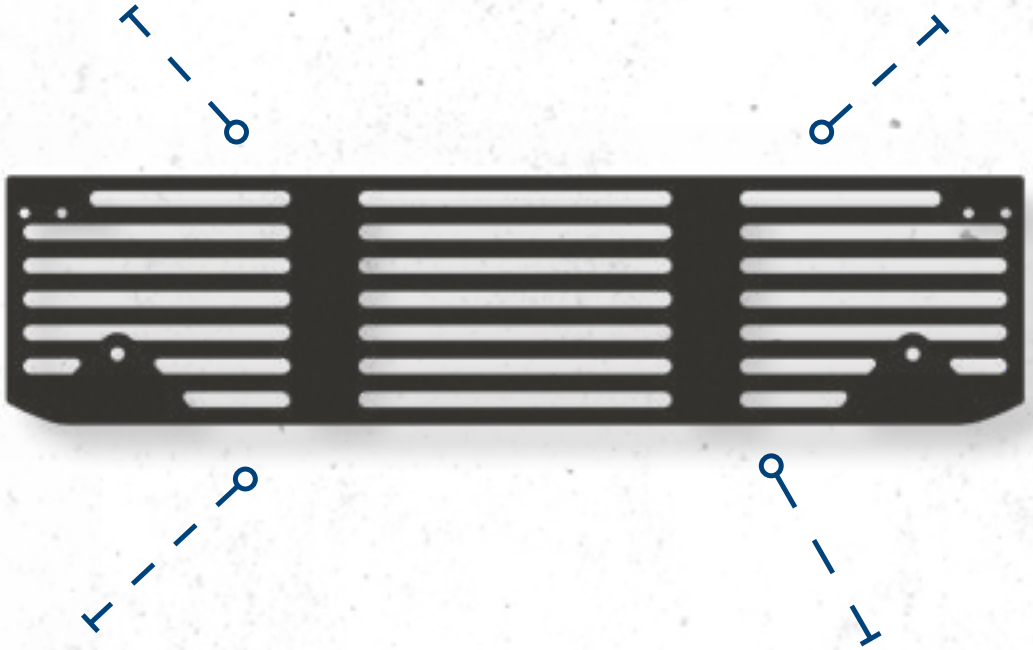
Upgrade the front end of your vehicle with Putco's high quality stainless steel and black powder coated grille inserts. Our stainless steel grilles are backed by our lifetime NeveRust™ guarantee, which means you will never have to worry about rust or corrosion. Black powder coated products have a 90-day warranty on the painted surface. This application is durable enough to weather everyday wear and tear. It is Laser-cut for precision fitments ensuring that our hidden mounting systems are in perfect alignment. This eliminates visible hardware and provides a seamless integration into your OEM bumper.

1 MADE IN THE USA

Designed, manufactured, & packed in Des Moines, IA. Putco® has been proudly supporting the automotive industry for over 50 years.

2 CUSTOM FITMENTS

Every part is designed and built to fit utilizing the OEM mounting system allowing for no drill installations.



3 2 FINISHES AVAILABLE

Our 26 guage 304 stainless steel is available in a high polished stainless steel or black mini-texture powder coat finish.

4 ALL NEW PATTERN

The all new Hex-Shield™ pattern offers a subtle yet undeniable accent to your front end. Designed to integrate with Hex-Shield Hitch-Flap™ or Mud Shields™ to create a cohesive look throughout the truck.

PUTCO®

PUSH-UP TIE DOWNS

SIMPLE PUSH ACTIVATION

REVEAL OR HIDE TIE-DOWN FUNCTION

HIDDEN FUNCTIONALITY.

Putco's Push-Up Tie-Downs are very heavy duty and stylish. They utilize a cam system to push-up when you need them, otherwise they stay tucked neatly out of the way. These stake pocket mounted anchor points are capable of handling up to 500 lbs. Putco has designed their truck bed tie downs to mount right into your stake pocket holes without any drilling. These tie downs are meant for full size domestic trucks and will also work with bed rail caps. Take control of your cargo area today by adding a set or two of these stylish chrome-plated tie downs from Putco! You won't be disappointed with the refined looks and rugged durability these push-up tie downs provide.

AVAILABLE IN CHROME & BLACK FINISHES

PUSH UP TIE DOWNS

FEATURES

- *Simple push activation to reveal or hide tie-down function*
- *Solid die cast construction*
- *OEM chrome or black powder coat finish*
- *Allows up to 500 pounds of tie down strength*
- *Easy no-drill mounting*
- *Sold in pairs*
- *Putco's Limited lifetime warranty*

Luminix®

FORD LED EMBLEMS

ILLUMINATE IN STYLE.

Upgrade your Ford truck by replacing its factory front and rear emblems with Putco's official Ford licensed LED emblems. This installment in the Luminix line of products seamlessly replaces the OEM Ford emblems using the original mounts. Installation is quick and easy, all wiring is plug & play, and routes directly to the fuse box. The IP69K rated emblem is tough and durable, designed to withstand the elements and provide a unique signature look to your vehicle. With this LED emblem you can set your vehicle apart from rest in no time in safety and style.

1 DIRECT TO OEM MOUNTS

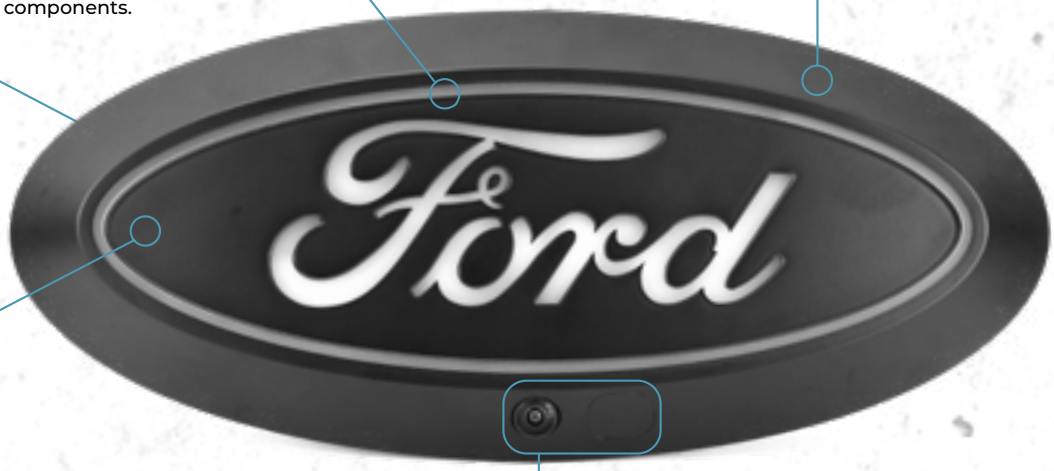
Putco's LED emblem fits directly into OEM post mounts and is fitted perfectly for a headache free installation that allows full use of camera and camera washing components.

2 START UP SEQUENCE

Putco's LED emblem begins illuminating with an eye-catching start up sequence at a 6500K color temperature. Sequence begins upon ignition.

3 LONGLASTING PERFORMANCE

Putco's LED emblem is injection-molded providing a UV resilient and chipping resistant construction that delivers a longlasting performance.



4 IP69K RATED

IP6 refers to the product's ability to resist ingress of dust while the 69K refers to the product's ability to resist ingress of high temperature / high pressure water.

5 CAMERA COMPATIBLE

Direct fit emblems available for models equipped with cameras & washing systems.
(OE camera system not included)

Illuminated Front Emblem

Illuminated Rear Emblem

PATENTED: #9,987,973 • # 10,618,461 • # D730,548 • # D736,432

LUMINIX FORD LED EMBLEMS

PUTCO NITRO LUX

PUTCO'S MOST POWERFUL FOG LIGHT KIT

DESIGNED FOR MAXIMUM DOWN-ROAD PUNCH

6500K
COLOR TEMPERATURE

5000
LUMENS

OPERATING VOLTAGE • 12V-24V
INPUT POWER • 24W

THESE IMAGES ARE FOR GUIDE PURPOSE ONLY, ACTUAL RESULTS MAY VARY DEPENDING ON AMBIENT LIGHT FACTORS.

ALL PRODUCTS ARE PATENTED AND PROPERTY OF PUTCO®

MOST POWERFUL.

Through technology using Japanese micro capacitors we have been able to introduce a smaller integrated anti-flicker circuit built directly into the driver, eliminating the need for an external CANBUS module. Paired with our patented woven heat sink, the Nitro Lux® fog light kit is the best choice for any application. This fog light kit provides the same cool white color temperature that our previous generations offered with many new updated features to nearly every aspect of the fog light kit. The Nitro Lux kit is the culmination of all the experience and technology learned from previous generations of LED fog light kits wrapped into one new cutting edge bulb.

ALL NEW DRIVER BOX

UPGRADED TECH • MINIATURIZED PARTS

Putco's anti-flicker* driver box is completely sealed with Tough Seal™ 22 potting to ensure our driver is 100% waterproof. To make our driver box even better we incorporated all new miniaturized capacitors to reduce the size of our driver box by 30%. All with braided 10mil PET mono-filament braided sleeves to protect wires from abrasion and heat.

** Flicker kit still required on Ram Trucks*

FULL SURFACE ANODIZATION

Non-reflective nickel finish to eliminate light ray interference inside lamp housing.

[ATC] ADVANCED THERMAL CONTROL

Our patented flexible heat-sink is the most advanced heat management system available on the market. Our solid state design is scientifically proven to maximize performance and the bulbs life span through superior heat mitigation.

EC EASY-CLOCK™ COLLAR

Our new built in clock-able collar design allows for quick and easy adjustment of the light beam. This allows you to point the angle of the beam exactly where you need it.

SSD SOLID STATE DESIGN

No moving parts means a stronger design and more reliable product.

PRODUCT PACKAGING

Each kit is brilliantly showcased in a full-color litho carton with a clear display window. Product is secured and well protected in a impact resistant foam thats cut specific to the product's shape.

FEATURES

- *6500K color temperature.*
- *5000 lumens (per kit).*
- *Putco's most powerful bulb ever designed for maximum down-road punch.*
- *Fully anodized non-reflective nickel finish to eliminate light ray interference inside lamp.*
- *NEW Built in collar design allows for quick and easy adjustment of light beam.*
- *Our new Nitro-Lux™ LED is even slimmer with an industry leading footprint to fit into modern minimal housing space.*
- *Exclusive solid state design for maximum performance, long life, and superior scientifically proven heat mitigation.*
- *Tough Seal™ 22 potting / 100% waterproof*
- *NEW miniature capacitors eliminate external anti-flicker module, reduces size of driver box by 30%*
- *Perfect fitments with existing OEM harness.*
- *Twist lock & slide pressure locks for OEM guarantee flawless contact points.*
- *2 Year Warranty*

WHAT'S INCLUDED

LUMENS PER KIT

OPERATING VOLTAGE • 9V-32V
INPUT POWER • 25W

DUAL COLOR
AMBER / WHITE

Select Color Using Your Vehicle's Fog Light Switch

360 DEGREES.

The Nitro 360™ foglight kit offers the ability to adjust to any driving conditions. Simply using the vehicle's fog light switch change your light's color from white to amber or vise versa. It boasts a 6000K white temp for driving in low visibility and 3000K yellow that helps in weather such as rain, snow, or fog. On top of these features is the 360° light pattern for improved peripheral visibility. The Nitro 360 delivers the best versatility when it comes to fog lights.

Ultra Compact Driver Box- fits seamlessly in modern foglight housing space.

Respond to different weather conditions by "Switching" between Amber or White LED outputs.

GOOD VISIBILITY

Provides necessary illumination during times of low visibility such as rain, snow or fog.

BRIGHT LEDS

Produces 6000K white temp and 3000K yellow temp for adjustable LED illumination.

AIRFLOW DESIGN

Airflow design allows for better dissipation of heat throughout the bulb.

QUICK INSTALL

Plug & play design and vehicle specific connections offer quick and easy installation.

WHITE/AMBER COMPARISON

6000K WHITE LED OUTPUT

3000K AMBER LED OUTPUT

FEATURES

- *Dual color Amber/White functions for superior illumination no matter the road conditions.*
- *White LEDs for cool 6000K illumination at night.*
- *Amber LEDs for superior lighting in fog, rain, or snow.*
- *360° light pattern for improved peripheral visibility.*
- *3000 Lumen output per LED fog light kit.*
- *Solid state design - no moving parts for a stronger, more reliable fog light kit.*
- *Non-reflective nickel finish eliminates light ray interference inside light housing.*
- *Ultra-Compact driver box*
- *Pairs perfectly with Nitro Lux LED headlight kits.*
- *Can be used with strobe functionality*
- *1 Year Warranty*

LUMACORE QUICK PULSE BULBS

Putco is proud to introduce a new bulb that improves road safety by helping to alert other drivers on the road when you engage your brakes. This new bulb will turn on for 1 whole second and then flash 3 times at a .8 second interval, at which point the bulb remains lit. A powerful and economic option to enhance road safety for nearly any vehicle.

1 1 SECOND ON

When the brake is initially engaged the lights will illuminate for 1 second before the quick pulse function begins. The entire sequence takes 2 seconds from beginning to end.

2 .8 SECOND PULSE

Once the brake has been engaged and illuminated the bulbs will perform a 3 measure quick pulse function. The quick .8 second pulse helps alert others on the road to the braking sequence.

3 CONSTANT ON

The quick pulse illumination sequence only cycles through once, after the bulb has completed the sequence the LED bulb will remain on.

FEATURES

- *Alerts other drivers when you are braking.*
- *Strobe flashes 3 times in red & then stays on.*
- *10 watt, 300LM running power.*
- *Emits light in a full 360° Pattern.*
- *Copper coated center core for superior lux.*
- *Digital polarity - (Reversible contact points).*
- *Error free performance. No warning lights.*
- *Unrivaled plug and play performance.*
- *Sold as pairs.*
- *1 year warranty.*

12V-24V
50,000+ HRS

360° OF POWER.

When foul weather rolls in, your visibility can drop, making travel unnecessarily dangerous. It takes a powerful set of beams to pierce through dense fog, and old-school halogens just don't have the intensity to handle the job. Retire those dull bulbs and replace them with a cutting-edge set of Putco Optic 360° LED Fog Lamp Bulbs.

1 HIGH POWER CREE LEDS

The latest generation of solid-state LED emitters that combine highly efficient InGaN materials with Cree's proprietary optical design and device technology to deliver superior value for high-intensity LEDs.

2 OPTIC LENSES

Our convex lenses cast the high power LED chip output in a 360° pattern which improves peripheral visibility in inclement weather / heavy fog.

3 SOLID STATE DESIGN

No moving parts means a stronger design and more reliable product.

4 BILLET TOWERS

Optic 360° bulbs offer error-free performance, simply plug the LED in and enjoy high power illumination.

OPTIC 360° IS DESIGNED TO CUT THROUGH FOG AND LOW VISIBILITY

FEATURES

- *High Power LED Fog Lamp Bulbs*
- *30 Watt Cree LEDs.*
- *360 Degree lamp angle.*
- *Over 800 lumens per kit.*
- *6000K Color temperature*
- *Machined CNC Billet Aluminum with Optic Lens.*
- *DC 12-24 voltage.*
- *50,000+ hours LED lifetime.*
- *1 Year Warranty.*

MOST ADVANCED.

Replace your dim, worn out factory incandescent bulbs with brighter, longer lasting Putco Metal 360° LED bulbs. LED lights will make your vehicle more visible to other drivers, increasing your driving safety, and the cleaner, brighter light is much more attractive. They're also economical; they use much less power than incandescent bulbs and burn longer and cooler. With a lifespan of up to 50,000 hours, you'll most likely never have to replace them.

1 15 LEDS EMC PROTECTED

15 LEDs mounted in a 360° arrangement provides a spectacular amount of light output in all directions.

2 SOLID STATE DESIGN

No moving parts means a long lasting bulb with incredible longevity.

3 360° LED PLACEMENT

Metal 360° bulbs are built with low profile high impact LED chips providing a stunning amount of down road punch

4 PLUG & PLAY REPLACEMENT

Metal 360° bulbs offer error-free performance, simply plug the LED in and enjoy high power illumination.

LuminiX® EDGE

HIGHEST RATED LED LIGHT BAR

THE 4TH GENERATION LUMINIX LED LIGHT BAR

MADE IN THE USA

EXPERIENCE THE EDGE.

Upgrade your lighting capabilities with the next in our most innovative and advanced lighting solutions on the market, Putco Luminix EDGE Light Bars. Still boasting the thinnest design on the market, these light bars are constructed from billet aluminum and feature a black anodized finish. Multiple sizes are available depending on your needs, and you can choose between straight or curved light bars. Cree LEDs are housed in an argon-injected housing for the best in protection from the elements and offering the highest rated light bar.

1 CREE LEDS

High quality Cree 5-watt LEDs for superior shine.

2 15° OPTIC LENSES

New style lenses with powerful optic 15° focus lenses with 400 lumens output per LED.

18 Ar **ARGON INJECTED LED HOUSING**

- **Zero Moisture Ingression**
- **Eliminates Corrosion / Nonreactive To Other Elements**
- **Superior Thermal Insulation Barrier**

3 CNC 6061 T6 ALUMINUM

CNC 6061 T6 aluminum housing and black anodized finish.

4 IP69K & IP68 RATINGS

Fully potted to withstand the rigors of outdoor use.

MATERIALS

- *Solid State Design packed inside 6000 Series Aluminum with Powerful Cree LED's.*
- *High Quality Cree LEDs to accomplish high LUMEN output with 3 Watts per LED.*
- *Full wiring harness with deutsche connectors included.*
- *Adjustable Mounting Brackets included.*
- *Stainless Steel Mounting Hardware.*

PERFORMANCE

- *6000K Color Temperature.*
- *Rated at 3 watts / .75amps draw per LED*
- *IP69K rated for Dust and Moisture protection.*
- *50,000 Hour LED Bulb life.*
- *All Putco Luminix Light Bars are rated for 12V to 36V right out of the box.*
- *Includes thermal control chips, over/under voltage protection.*
- *Operating temperature (Equal or greater to => -100 Degrees F to 180 Degree F*

FEATURES

- *Measuring .75" x 1.5" depth, from 3.5" x 4.5" up to 70" lengths, this is the THINNEST and lowest weight Light Bar Available!*
- *Fully Potted to withstand the rigors of out-door use.*
- *15 degree focus lenses with output from 1200LM to 27,600LM.*
- *Anodized Matte Black Finish.*
- *Available in straight lengths from 6" and up to 60".*
- *Works with Industry Standard Brackets/ Mounts.*
- *Putco Luminix – LED LIGHT BAR – Manufac-tured and Assembled in USA by Putco.*
- *The Highest Rated Led Light Bar!*
- *Ip69k - Ip68 RatingS - DUST AND IMMERSION And High Pressure Water Spray*
- *Mil-Std-810G, Method 511.5 - Explosive Atmo-sphere Testing*
- *Mil-Std-810G, Method 514.6 - Vibration Testing*
- *Astmb 117 TESTing*
- *Multiple Patents Pending – Design and Utility*
- *3 Year Warranty*

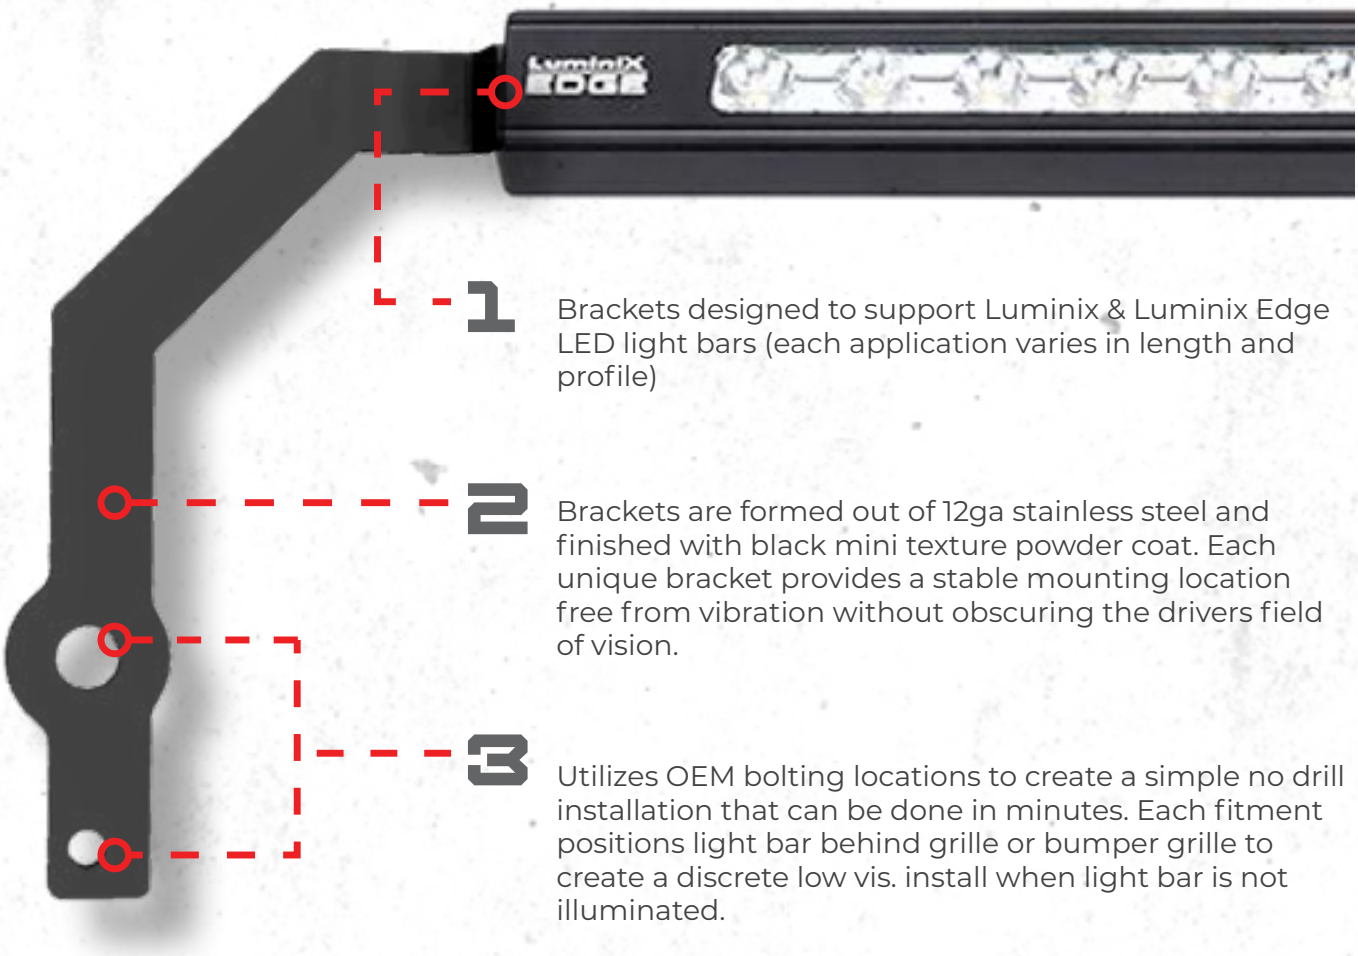
STEALTH GRILLE MOUNTS

CUSTOM FITMENT FOR EACH MAKE/MODEL



1. Brackets designed to support Luminix & Luminix Edge LED light bars (each application varies in length and profile)

2. Brackets are formed out of 12ga stainless steel and finished with black mini texture powder coat. Each unique bracket provides a stable mounting location free from vibration without obscuring the drivers field of vision.

3. Utilizes OEM bolting locations to create a simple no drill installation that can be done in minutes. Each fitment positions light bar behind grille or bumper grille to create a discrete low vis. install when light bar is not illuminated.

LuminiX®

HIGH POWER LED

GENERATION 4 LUMINIX®
STRAIGHT AND CURVED LED LIGHT BAR

BEVELED EDGES · FLUSH MOUNT BOLT KITS · NEW LENSES · BEST LUMINIX® LIGHT BAR EVER

MADE IN THE USA

MOST ADVANCED.

Upgrade your lighting capabilities with the most innovative and advanced lighting solutions on the market, Putco Luminix LED Light Bars. Boasting the thinnest design on the market, these light bars are constructed from billet aluminum and feature a black anodized finish. Multiple sizes are available depending on your needs, and you can choose between straight or curved light bars. Cree LEDs are tucked behind advanced optic lenses for maximum light output and a highly-focused beam that will illuminate everything in front of you. With wiring and mounting hardware included, you can drastically upgrade your lighting options in just minutes.

1 CREE LEDS

High quality Cree 5-watt LEDs for superior shine.

2 15° OPTIC LENSES

Powerful optic 15° focus lenses with 400 lumens output per LED.

HIGHEST RATED LED BARS

- Ip69k - Ip68 RatingS - DUST AND IMMERSION and High Pressure Water Spray
- Mil-Std-810G, Method 511.5 - Explosive Atmosphere Testing
- Mil-Std-810G, Method 514.6 - Vibration Testing
- Astmb 117 TESTing

4 CNC 6061 T6 ALUMINUM

CNC 6061 T6 Aircraft grade aluminum housing and black anodized finish.

5 THINNER THAN A NICKEL

Thinnest high power LED light bar design on the market. Measures .75" thick & 1.5" High

MATERIALS

- *Solid State Design packed inside 6000 Series Aluminum with Powerful Cree LED's.*
- *High Quality Cree LEDs to accomplish high LUMEN output with 3 Watts per LED.*
- *Full wiring harness with deutsche connectors included.*
- *Adjustable Mounting Brackets included.*
- *Stainless Steel Mounting Hardware.*

PERFORMANCE

- *6000K Color Temperature.*
- *Rated at 3 watts / .75amps draw per LED*
- *IP69K rated for Dust and Moisture protection.*
- *50,000 Hour LED Bulb life.*
- *All Putco Luminix Light Bars are rated for 12V to 36V right out of the box.*
- *Includes thermal control chips, over/under voltage protection.*
- *Operating temperature (Equal or greater to => -100 Degrees F to 180 Degree F*

FEATURES

- *Measuring .75" x 1.5" depth, from 3.5" x 4.5" up to 70" lengths, this is the THINNEST and lowest weight Light Bar Available!*
- *Fully Potted to withstand the rigors of outdoor use.*
- *15 degree focus lenses with output from 1200LM to 27,600LM.*
- *Anodized Matte Black Finish.*
- *Available in straight lengths from 5" and up to 70". Unique radius applications available in lengths 30", 40", 50" & 60".*
- *Works with Industry Standard Brackets/ Mounts.*
- *Putco Luminix – LED LIGHT BAR – Manufactured and Assembled in USA by Putco.*
- *The Highest Rated Led Light Bar!*
- *Ip69k - Ip68 RatingS - DUST AND IMMERSION And High Pressure Water Spray*
- *Mil-Std-810G, Method 511.5 - Explosive Atmosphere Testing*
- *Mil-Std-810G, Method 514.6 - Vibration Testing*
- *Astmb 117 Testing*
- *Multiple Patents Pending – Design and Utility*
- *3 Year Warranty*

LuminiX®

HIGH POWER LED MINI-BLOCK LAMPS

3RD GENERATION

NEW VERSATILE MOUNTING SOLUTIONS

MADE IN THE USA

SMALL & POWERFUL.

High Power Luminix LED Lights deliver high quality, universal bright lighting that is 300% smaller than other imported lights on the market. Each of these come fully assembled and ready to mount on your truck, ATV, or to any area that you need high power LED lighting. These parts are constructed of black anodized 6061 billet aluminum, feature Cree 5W LEDs, and focus lenses that concentrate the light beam path.

HOOD MOUNTS

FEATURES

- CNC cut from durable long-lasting 12ga stainless steel.
- Finished with black mini-texture powder coat for scratch resistant surface.
- Custom designed brackets for each make and model for perfect fitment in every application.
- No drilling, no cutting.
- Simple installation utilizes OEM mounting locations to create seamless, low profile lighting solutions.
- Places LEDs at optimal height for improved visibility.
- Single bolt mount offers easy adjustment to light focal points.
- Designed and manufactured in the USA.

MADE IN THE

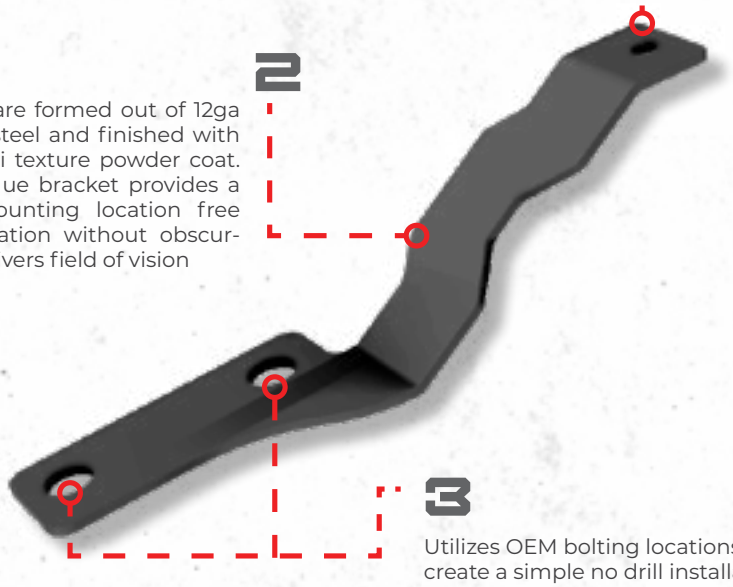
SIMPLE INSTALL

Custom brackets design to mount using OEM bolt locations eliminating need for any drilling or cutting. All brackets allow free range of motion of hood in open or closed position.

CUSTOM FITMENT FOR EACH MAKE/MODEL

1 Brackets designed to support: Luminix 3 LED Mini Block Lamps (10007) & 6 LED Mini Block Lamps (10004)

2 Brackets are formed out of 12ga stainless steel and finished with black mini texture powder coat. Each unique bracket provides a stable mounting location free from vibration without obscuring the drivers field of vision



3 Utilizes OEM bolting locations to create a simple no drill installation that can be done in minutes.

HIGH POWER LED TAIL LAMPS

HIGH POWER LEDS

PLUG & PLAY INSTALLATION

REAR BRIGHTNESS.

Add safety and visibility to your Wrangler JK with a set of Putco Luminix LED Tail Lamps. Our tail lamps are designed to install in minutes without cutting or splicing. These intensely bright Tail Lights use 450 LEDs per lamp with chip on board technology. Luminix Tail Lights feature 2,400 total lumen reverse lights and sequential scanning amber turn signals. The Luminix LED Tail Lights compliment Putco's line of Luminix LED Jeep headlights and fog lights. Backed by our 2 year limited warranty.

LUMINIX TAIL LAMP (JK SERIES)

DIRECT REPLACEMENT FOR OEM TAIL LAMP • 3RD GENERATION

FEATURES

- *Brilliant red running and brake light functions.*
- *Super amber sequential turn signals.*
- *Extreme 2,400 lumen back up light.*
- *Brightest in the World!*
- *Direct factory OEM replacement - Plug&Play.*
- *Works with all vehicle functions.*
- *No error codes.*
- *Fully Encapsulated and Solid State Design.*
- *IP69K Water and Dust Ingress Rating (Highest rating possible!)*
- *2 Year Warranty.*

A SUPERIOR TAIL LAMP BEGINS WITH A BETTER LENS

Lenses designed to optimize light output as well as pattern to provide the right amount of light and a clean look.

JEEP DOME LIGHTS

HIGH POWER PREMIUM LEDS

PLUG & PLAY INSTALLATION

LIGHTS FROM ABOVE.

Replaces your dim stock bulbs found in your overhead dome light with our Premium LED Dome Light Kit for improved visibility and superior illumination. Our Premium LED Kits are 18x brighter than the original factory bulbs, which not only improves the quality of interior light but the overall appearance of your Jeep JK. This Kit is a great and inexpensive way to maximize your JK's interior lighting. Our Premium LED replacement Bulbs produce a brilliant 13,000K light, that delivers a crisp, ultra-white light. Wired for 12V operation, these Bulbs are custom-designed to fit your JK's dome light housing perfectly. Putco LED Dome Light Bulbs have an amazingly long life expectancy which is rated for over 50,000 hours of continuous use.

PREMIUM JEEP DOME LIGHTS (JK SERIES)

2 DOOR & 4 DOOR DIRECT DOME LIGHT REPLACEMENT KIT

FEATURES

- *Brightest dome light upgrade available*
- *Requires no wiring knowledge.*
- *Custom designed to perfectly fit your vehicle's dome light housing.*
- *Simply plug and play with the custom connector included.*
- *Wired for 12V operation.*
- *Life expectancy which is rated for over 50,000 hours of continuous use.*
- *2 Year Warranty*

BLADE™

LED TAILGATE LIGHT BAR

BE SAFE. BE SEEN.

Our tailgate light bar provides the greatest visibility on the market. There are many light bars to choose from but Putco's Blade™ stands apart from the rest in virtually every aspect of its design. From the high power chip on board technology to the weather proof tinted polycarbonate housing; you can be sure that not only are you getting a brighter, crisper, more vibrant light but an extremely durable lighting accessory. All of our light bars are backed by Putco's extensive multi-year warranty program. When it comes to setting your truck or SUV apart from the rest the decision is simple, choose Putco's Blade™ Tailgate Light bar.

1 FLEXIBLE DESIGN

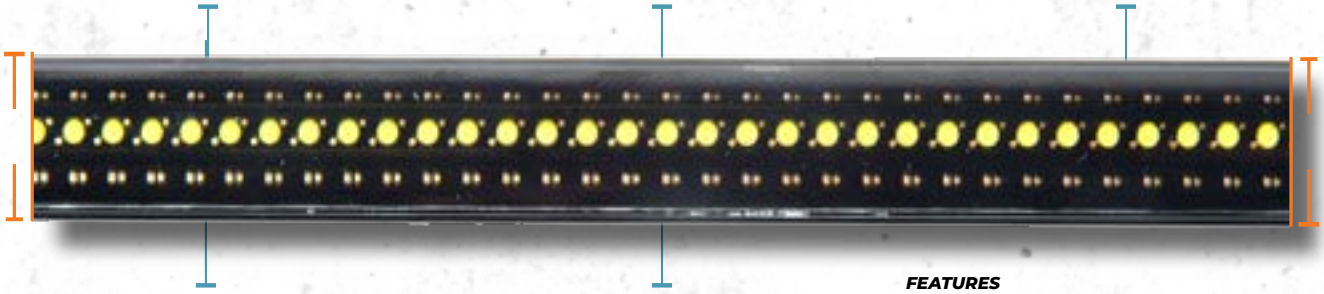
The flexible design allows for installation in a wide variety of locations. A curved surface or a standard straight mount both work seamlessly with our patented mounting clips.

2 5 FUNCTIONS

Our classic Blade® Tailgate light bar runs on the factory 4 pin harness providing your standard left & right turn signals, reverse, running, brake and hazard over-ride functions.

3 2000 LEDS

Our compact design allows us to mount LEDs in a dense pattern that yields a light pattern with indistinguishable output points. This creates a seamless blade of light.



4 IP69K RATING

Our light bars are fully encapsulated with a tinted polycarbonate housing to keep moisture, dirt, and dust out ensuring that our light bars will function consistently rain or shine.

5 COB LEDS

Resins are used to protect, insulate, and conceal circuitry, components, and devices. Formulated to satisfy the requirements of the many demanding applications.

FEATURES

- *High power chip on board technology.*
- *Up to 2,000 LEDs in a 60" light bar.*
- *Brilliant defining LED light output in red, amber, and white.*
- *Custom designed to fit all full and mid sized trucks / suvs.*
- *Fully encapsulated in a tinted polycarbonate housing.*
- *IP69K rated - Fully sealed and weather proof.*
- *Operates with running lights, brake lights, reverse lights, and turn signals.*
- *3 year warranty.*

BRIGHTNESS

PUTCO BLADE®

The goal of a tailgate light bar is to increase your vehicles' visibility on the road, so a high lumen output is a critical element of Putco's Blade tailgate light bar. Our product achieves a 3000-lumen output through the use of a dense arrangement of over 2000 chip-on-board LED's. Many of the competitors' products utilize SMT LEDs which has its own benefits and drawbacks. Using COB LED's allows us to pack more diodes into a tighter space creating the appearance of singular line of intense light. Ultimately when choosing your light bar visibility on the road should be one of your highest priorities. This is the feature that prevents collisions and gets you and your family home safe.

OUR COMPETITORS

EXAMPLE 1

Fewer LED's not only limit the overall lumen output but create visible breaks in the line of light.

EXAMPLE 2

The method of mounting these LEDS is less precise which creates a staggered and uneven spread of LED chips upon close examination.

EXAMPLE 3

Overall, the lower the LED diode count, the less impact the light bar will have on the road.

INCREASE VISIBILITY WHEN IT COUNTS

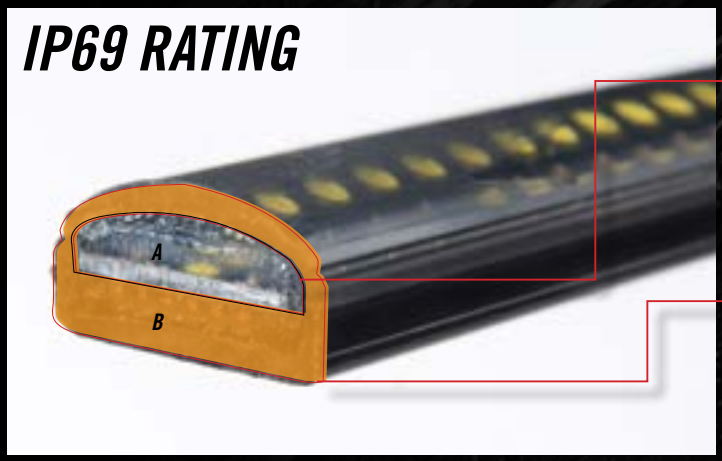
The powerful Lumen output provides additional lighting when the vehicle is in reverse. The cool 6000K reverse light color offers improved visibility not only for others on the road but for the driver while backing up at night.

WATER PROOF

This is where the Blade product line stands apart from the rest of the light bars on the market. Putco has gone through great lengths of testing and development to achieve a higher rating than any other tailgate light bar. To better understand what makes the blade so durable we need to break down the rating classification system. You may be searching on-line, comparing these products on your own, and find ratings like IP57 or IP68, etc. But what does this actually mean?

IP simply stands for Ingress Protection; the following two numbers represent what level of ingression protection is provided from solids and liquids respectively. So looking at the Blade we see a rating of IP69, this is the highest possible rating. The 6 denotes this product is 100% dust tight, that means zero dust ingression after 8 hours of testing. The second number, 9 denotes this product is not only 100% free from moisture ingression after 30 minutes of pressurized submersion but can also withstand high temperature pressurized water as well.

IP69 RATING



A

- *Patented 2-part resin conceals, protects, and insulates the circuitry. The custom resin is injected into the patented extruded housing in a vacuum, removing all air and moisture for a 100% waterproof product.*

B

- *Tinted polycarbonate extruded housing provides complete encapsulation. This creates a watertight chamber to hold the 2-part resin and protect the internal components from the rigors of use.*

LET'S TAKE A LOOK AT WHAT THE COMPETITION HAS TO OFFER:

While no light bar is impenetrable, there are certainly things to look for when identifying a quality part. The light bars outlined below contain elements of a strong design but lack the crucial combinations of an exterior shell that can prevent damages on contact, and an interior defensive layer to conceal and protect delicate circuitry and diodes. Overall the competitors light bars are bigger and bulkier, contain inconsistent chip arrangements, and housing material irregularities.

OUR COMPETITORS

EXAMPLE 1

The material protecting the delicate circuitry and diodes from outside elements is only effective when intact. The soft resin material is easily scraped and removed exposing the diodes to moisture and dust. The exterior housing does little to prevent damage to the lens area on this particular light bar.

EXAMPLE 2

Again the product used to protect the circuitry is exposed to the elements and easily damaged. Once the fragile board and diodes are exposed to moisture, it is only a matter of time before component failure.

EXAMPLE 3

While this part contains a tough outer shell, there is no resin material encasing the circuitry or diodes. Once this seal is compromised the sensitive components of the light bar will be exposed to moisture and dust guaranteeing failure.

QUALITY

The overall quality of light is yet another category in which the Blade® Tailgate Light Bar stands apart from the rest. Many of the competitors lightbars LED spacing is so significant, there are visible breaks in the light pattern across the tailgate creating a "Christmas Light" effect. The Blade® Tailgate Lightbar utilizes a chip on board design allowing a densely packed arrangement of LED's. The high diode count in turn creates a nearly seamless bar of light along the entire length of the tailgate with a far greater impact than any of the competitor's products.

BLADE

COMPETITOR

COMPATIBILITY

Part of what makes the Putco tailgate light bar an industry leader is the ease of installation. While all light bars can be wired directly to the taillights, the Blade® Tailgate Light Bar paired with the Quick Connect Harness can be installed in minutes utilizing the trailer harness. This simple plug & play solution allows the consumer to easily install the light bar without cutting or splicing wires making this an approachable installation project for novice and experts alike.

529004

UNIVERSAL APPLICATION

529005

FOR 2019+ SILVERADO SIERRA HD

QUICK CONNECT HARNESS APPLICATIONS

The quick connect harness allows you to keep your factory electrical wiring intact while keeping your trailer connections available for towing without having to disconnect your tailgate light bar. Putco offers a plug & play solution for most vehicles and is currently working to provide solutions for all of the newest models.

MULTIPLE SIZES

The Putco light bar offers a lot of versatility in this category. There are 4 different lengths available to accommodate HD and LD trucks, and smaller split light bars that work around tailgate obstacles like spare tire access ports or the tire itself on Jeep JK/JL's. The different lengths provide a perfect fitment on nearly any make and model. Putco offers the slimmest low-profile option on the market at .75" wide by .375" tall. This makes the Blade an ideal option for any vehicle because it will not inhibit tailgate functionality and becomes nearly invisible once installed in the recessed space on trucks when it is not illuminated.

DUAL PAIR OPTION

Pictured above is the dual 18" option created for vehicles with obstacles in the center of the bumper. This blade is the perfect option for Jeeps and other vehicles with a center mounted tire.

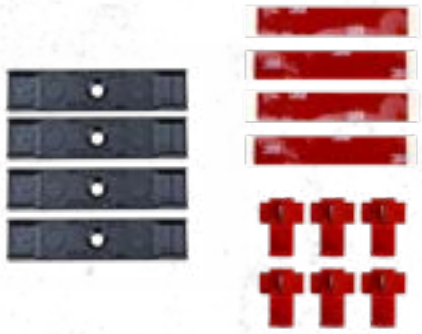
ATTACHMENT

The attention to detail makes the Putco Blade® a truly innovative product. One key element of the design that many competitors have overlooked is seemingly simple — the method of attachment. While the Putco Blade® utilizes 3M™ Automotive Tape as a primary method of connection, the patented clip mechanism allows for the light bar to be detached to access the port for raising and lowering of the spare tire. A roadside tire change is enough to deal with, the last thing the consumer should be concerned with is how to remove and then reinstall a tailgate light bar on the side of a busy roadway.

PATENTED CLIPS

Each Blade® comes with a set of four. The patented clip system includes a piloted hole for an alternative permanent bolt/screw on attachment if preferred over adhesion.

KIT CONTENTS



Each kit contains 4 sets of clips and strips of 3M™ Automotive tape as well as a set of scotch locks for direct wire methods.

BLADE® LED LIGHT BARS

SIGNALS IN RED, AMBER, AND WHITE

BLADE

FEATURES

- *High power chip on board technology.*
- *Up to 2,000 LEDs in a 60" light bar.*
- *Brilliant defining LED light output in red, amber, and white.*
- *Custom designed to fit all full and mid sized trucks / suvs.*

Work BLADE™

LED LIGHT BAR FOR WORK TRUCKS

VERSATILE MOUNTING OPTIONS

IDEAL FOR DISCRETE LOW PROFILE APPLICATIONS

BE SAFE. BE SEEN.

The Putco Work BLADE™ LED Light Bar makes it easier for workers and their vehicles to be seen by providing incredibly high power illumination. By increasing visibility, it also increases safety, taking a load off of workers' minds. Based on our popular BLADE® for personal vehicles, the special features of the Work BLADE make it a perfect addition for any fleet of utility vehicles.

INCLUDES: *Solid State Remote Control, Rocker Switch and pantented mounting clips.*

FEATURES

- *Up to 1400 Lumen output*
- *Wire concealing custom end caps for stealth and zero wire visibility installation.*
- *100% tape along length end cap design along with patented clip system for mounting.*
- *Unique design is flexible which allows for installation on curved surfaces.*
- *Patented PC housing completely sealed with Putco's own formula of 2 part SILICA epoxy.*
- *All Work Blade products come with a solid state remote control with 64 strobing (frequency and speed functions) INCLUDING white override AND solid color ON states.*
- *All Work Blade products come with a solid state remote control, as well as a rocker switch, and patented clips for mounting.*
- *SAE Class 1,2,3; Title 13*
- *3 Year Warranty*

CLUTCH BUDDY™

EASE THE SQUEEZE

PULL IN THE CLUTCH LEVER, ENGAGE THE CLUTCH BUDDY™, AND RELAX

EASE THE SQUEEZE.

After years of slow rolling through stop and go traffic, constantly squeezing the clutch lever, jumping in and out of neutral, an idea was formed. Something intuitive, simple, and efficient... the Clutch Buddy™. Anyone who has ever experienced this type of traffic can truly respect the innovation and design behind this unique product. In 2014 the Clutch Buddy™ creator David Ott saw his idea realized enabling effortless gear control with a flick of your thumb.

CHROME CLUTCH BUDDY

LIMITED MULTI-YEAR WARRANTY
