EMERGENCY BLADE

LED TAILGATE LIGHT BAR FOR EMERGENCY VEHICLES

ANTI-COLLISION LED LIGHT BAR

ANTI-COLLISION LED LIGHT BAR

FEATURES

- Standard emergency blade with classic tailgate light bar functionality.
- Override feature allows standard turn signal or brake function to continue to work while emergency function is active.
- 1400 Lumen output. Our most powerful Blade ever produced.
- 1800+ LED's working in concert to emulate a tail lamp function with an emergency override.
- Wire hidden custom end caps for stealth and zero wire visibility installation.
- Utilizes patented 5055 brackets for mounting.
- Unique design is flexible which allows for installation on curved surfaces.
- Patented polycarbonate housing completely sealed with Putco's own formula of 2 part SILICA epoxy.
- Wires directly to your tail light functions.
- Emergency Blade products come with a solid state remote control with programmable frequency and pattern functions.

Patented: #9,995,473 • #9,995,796 • #9,995,296

[15 LEDs]

EMC PROTECTED TOWER

15 LEDs mounted in a 360° arrangement provides a spectacular amount of light output in all directions.

360°

LED PLACEMENT

Metal 360° bulbs are built with low profile high impact LED chips providing a stunning amount of down road punch in a tiny, durable, reliable package.

DIGITAL POLARITY

PLUG & PLAY REPLACEMENT

Metal 360° bulbs offer error-free performance, simply plug the LED in and enjoy high power illumination.

FEATURES

- Emits light in a full 360° pattern.
- Dual polarity for ease of installation.
- No radio frequency interference.
- Unrivalled plug and play performance.
- Error free performance. No warning lights.
- Features a copper core for efficient heat control and powerful light output.
- 1 year warranty.

SSD

SOLID STATE DESIGN

No moving parts means a long lasting bulb with incredible longevity.

QUICK PULSE FUNCTION

ALL NEW WAY TO ALERT OTHERS ON THE ROAD TO SPEED CHANGES

Putco is proud to introduce a new bulb that improves road safety by helping to alert other drivers on the road when you engage your brakes. This new bulb will turn on for 1 whole second and then flash 3 times at a .8 second interval, at which point the bulb remains lit. A powerful and economic option to enhance road safety for nearly any vehicle.

Stage 1

1 SECOND ON

When the brake is initially engaged the lights will illuminate for 1 second before the quick pulse function begins. The entire sequence takes 2 seconds from beginning to end.

Stage 2

.8 SECOND PULSE

Once the brake has been engaged and illuminated the bulbs will perform a 3 measure quick pulse function. The quick .8 second pulse helps alert others on the road to the braking sequence.

Stage 3

CONSTANT ON

The quick pulse illumination sequence only cycles through once, after the bulb has completed the sequence the LED bulb will remain on.

PATENTED CLIP SYSTEM

The Putco Work BLADE™ LED Light Bar makes it easier for workers and their vehicles to be seen by providing incredibly high power illumination. By increasing visibility, it also increases safety, taking a load off of workers' minds. Based on our popular BLADE® for personal vehicles, the special features of the Work BLADE make it a perfect addition for any fleet of utility vehicles.

PUTCO TEC RAIL™

Shown with a Luminix Light Bar and WorkBlade installed.

TEC RAIL™ LOCKER RAIL

FEATURES

- Fits seamlessly with Putco's all aluminum made in USA Boss™ Rack.
- Channels to support Putco's patented Blade™ series light bars.
- No drill pocket stakes.
- Pass through channel for in stanchion wire routing.
- Black powder coat finish.
- 500lb tie down strength.
- Nylon 66 injection molded stanchions.
- Custom molded nylon gaskets for perfect fitments on each and every application.

PUTCO[®] **HORNET[™]** AMBER LED STEALTH ROOFTOP STROBE LIGHT BAR

Designed with a sleek, low profile, and stealth design in mind. It is fully weatherproof with lightheads completely sealed off and encapsulated with an easy roof mount setup, you'll be ready to go in no time.

16 INCHES | 3 WATT LEDS | 30 FLASH PATTERNS

16 INCH MODEL | PART#950116

24 INCH MODEL | PART#950124

FEATURES

- Fully encapsulated electronics
- Memory function to recall last pattern used
- 12 feet of cable and control box
- Professional design
- New Generation TIR LED technology with 22 LED modules
- 360 degree coverage
- 30 different Amber Strobe Patterns
- Highly Durable, made to endure harsh conditions
- Over 50,000 hrs life expectancy
- Last pattern recall / memorized function
- Weather-Proof IP67

BOSS™ HEAD ACHE RACK HIGHLY COMPATIBLE DESIGN

BUILT FOR ACCESSORIES

NO DRILLING NECESSARY

Boss Racks come with hardware that allow no drill mounting. Insert brackets in stake pocket and simply tighten bolt in place. Additional bolts included if drill mount is desired.

TEC RAIL™ COMPATIBLE

Mounting plate fits directly with Tec Rail stanchions with precise alignment for full Tec Rail integration. Hardware is identical to Tec Rail hardware for quick and easy upgrade to full Tec system.

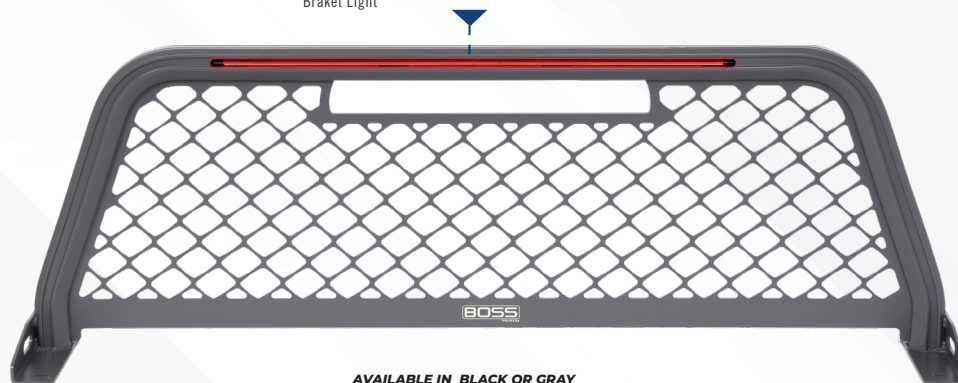

BED COVER COMPATIBLE

Boss Rack and Tec Rail both fit seamlessly with rolling and folding Tonneau covers. No modification necessary. Mounting plates seat flush directly outside of cover tracks.

LUMINIX® LED LIGHT BARS

Vehicle specific brackets sold separately

10" - 60" STRAIGHT & CURVED LED LIGHT BARS

HARNESS AND ROCKER SWITCH INCLUDED

FEATURES

- Engineered optic lenses maximize light output & create a bright, unique LED beam.
- Premium quality & American manufactured.
- 12V LED light bar.
- The thinnest light bar in the world.
- Versatile installation solutions.
- Made of billet 6000 series aluminum.
- Coated with a UV protected black anodized finish.
- Powerful light output (400 Lumens per LED)
- 6000K Color temperature.

STRAIGHT

CURVED

LUMINIX® FOG LAMPS

LED FOG LAMP

DIRECT OEM REPLACEMENT KITS

FEATURES

- Aircraft grade aluminum housing with black anodized finish.
- Utilizes existing OEM fog lamp housing.
- Fully compatible OEM harness for plug and play installation.
- Each 12V lamp output 1,200 lumens, 9 watts, and .57 amps at 6,000K
- Uses Putco's proprietary 5° lenses.
- Made in the USA.
- 3 year warranty

LUMINIX® MINI LED BLOCKS

3 & 6 LED BLOCK LAMPS

BRACKETS INCLUDED

FEATURES

- Sold as singles.
- Manufactured and assembled in USA by Putco.
- 3 LEDs.
- 5° focus lenses.
- Versatile mounting solutions.
- Anodized matte black finish.
- 3 year warranty.
- Patented - #736,432 & #730,548.

LUMINIX® FLUSH MOUNTS

LED FLUSH MOUNTS

HARNESS AND ROCKER SWITCH INCLUDED • 6000K COLOR TEMP

FEATURES

- Premium quality - American manufactured.
- Slim design - low profile.
- 6000K color temperature.
- Works on 12V-36V power.
- Incredibly thin at just .75 inches deep.
- Constructed of black anodized 6061 billet aluminum.
- IP69K rated for dust and moisture.
- 50,000 hour bulb life 5° focus lenses.

FEATURES

- 6500K color temperature, 5000 lumens (per kit).
- Putco's most powerful bulb ever designed for maximum down-road punch.
- Fully anodized non-reflective nickel finish to eliminate light ray interference inside lamp.
- NEW Built in collar design allows for quick and easy adjustment of light beam.
- Our new Nitro-Lux™ LED is even slimmer with an industry leading footprint to fit into modern headlamps minimal housing space.
- Exclusive solid state design for maximum performance, long life, and superior scientifically proven heat mitigation.
- Tough Seal™ 22 potting / 100% waterproof
- NEW miniature capacitors eliminate external anti-flicker module, reduces size of driver box by 30%
- Perfect fitments with existing OEM harness.
- Twist lock & slide pressure locks for OEM guarantee flawless contact points.
- 3yr Warranty

PUTCO'S MOST POWERFUL HEADLIGHT KIT

DESIGNED FOR MAXIMUM DOWN-ROAD PUNCH

[ATC] ADVANCED THERMAL CONTROL

Our patented flexible heat-sink is the most advanced heat management system available on the market. Our solid state design is scientifically proven to maximize performance and the bulbs life span through superior heat mitigation.

EC EASY-CLOCK™ COLLAR

Our new built in clock-able collar design allows for quick and easy adjustment of the light beam. This allows you to point the angle of the beam exactly where you need it.

STROBE CAPABILITY

Can be used with strobe functionality.

SSD SOLID STATE DESIGN

No moving parts means a stronger design and more reliable product.

FULL SURFACE ANODIZATION

Non-reflective nickel finish to eliminate light ray interference inside lamp housing.

QUICK PULSE FUNCTION

ALL NEW WAY TO ALERT OTHERS ON THE ROAD TO SPEED CHANGES

Putco is proud to introduce a new bulb that improves road safety by helping to alert other drivers on the road when you engage your brakes. This new bulb will turn on for 1 whole second and then flash 3 times at a .8 second interval, at which point the bulb remains lit. A powerful and economic option to enhance road safety for nearly any vehicle.

Stage 1

1 SECOND ON

When the brake is initially engaged the lights will illuminate for 1 second before the quick pulse function begins. The entire sequence takes 2 seconds from beginning to end.

#7743/7440

BULB TYPE	PART #
7740	HC7740R
7443	HC7743R

Stage 2

.8 SECOND PULSE

Once the brake has been engaged and illuminated the bulbs will perform a 3 measure quick pulse function. The quick .8 second pulse helps alert others on the road to the braking sequence.

#1156/1157

BULB TYPE	PART #
1156	HC1156R
1157	HC1157R

Stage 3

CONSTANT ON

The quick pulse illumination sequence only cycles through once, after the bulb has completed the sequence the LED bulb will remain on.

#3156/3157

BULB TYPE	PART #
3156	HC3156R
3157	HC3157R
